CHILD HEALTH DAY, 1946

BY THE PRESIDENT OF THE UNITED STATES
OF AMERICA
A PROCLAMATION

WHEREAS the Congress by joint resolution of May 18, 1928 (45 Stat. 617) has authorized and requested the President of the United States to issue annually a proclamation setting apart May 1 as Child Health Day:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, in recognition that the health of American children, like their education, should be accepted as a definite public responsibility, do hereby designate the first day of May of this year as Child Health Day.

And I call upon the people in each of our communities to pledge themselves today to review their community health and medical care services to see how well these services meet the needs of all our children in the light of the goals of the national health program, and to organize a definite plan to achieve within the coming year at least one improvement in community health services which will contribute to the better health of children.

IN WITNESS WHEREOF I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 13th day of April in the year of our Lord nineteen hundred and forty-six, [SEAL] and of the Independence of the United States of America the one hundred and seventieth.

PROCLAMATION 2687

NATIONAL MARITIME DAY, 1946

BY THE PRESIDENT OF THE UNITED STATES OF
AMERICA
A PROCLAMATION

WHEREAS improvements in modes of ocean transportation during the last one hundred and fifty years have opened possibilities, new in history, of mutually profitable intercourse and closer relations between peoples; and

WHEREAS a signal event in this technical progress was the first successful ocean passage by a steam-propelled vessel, the *Savannah*, which departed from Savannah, Georgia, May 22, 1819; and

WHEREAS in World War II the seamen of the United States Merchant Marine displayed splendid heroism, under stress and under hazard in the waters of every ocean, in meeting the demands on them in the colossal task of supply which was so essential to our victory; and

WHEREAS in peace no less than in war the Merchant Marine makes a vital contribution to the welfare of the Nation; and

WHEREAS the Congress by a joint resolution approved May 20, 1933 (48 Stat. 73) designated May 22 of each year as National Maritime Day and requested the President to issue annually a proclamation calling upon the people of the United States to observe that day:

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, do hereby call upon the people of the United States to observe May 22, 1946 as National Maritime Day by displaying the flag at their homes or other suitable places, and I direct that the flag be displayed on all Government buildings on that day.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 13th day of April, in the year of our Lord

MISCELLANEOUS AMENDMENTS

The following amendments and additions to the regulations contained in Parts 841, 844 and 848 are hereby prescribed. These regulations are also contained in Change 47, April 20, 1945 (10 F.R. 5171¹) as amended by Change 55, March 30, 1946.

AUTHORITY: Parts 841 to 849, issued under sec. 5a, National Defense Act, as amended, 41 Stat. 764, 54 Stat. 1225, 10 U.S.C. 1193-1195; the First War Powers Act, 1941, 55 Stat. 838; 50 U.S.C. Supp. 601-622; and the Contract Settlement Act of 1944, 58 Stat. 649.

The original paragraph numbers appear in brackets following text affected.

For an explanation of the numbering and arrangement of the original regulations see §§ 841.113 to 841.113-5.

The exclusions under section 22 (b) (13) and this section are applicable only to compensation received prior to the termination of the present war to be fixed by proclamation of the President. Such exclusions are applicable without regard to the marital status of the recipient of the compensation, and if a husband and wife both meet the requirements of the statute, then each is entitled to the benefit of an exclusion. For the purposes of this section the military and naval forces of the United States include (but are not necessarily limited to) the Army, the Navy, the Marine Corps, the Coast Guard, the Army Nurse Corps, Female, the Navy Nurse Corps, Female, the Women's Army Auxiliary Corps or the Women's Army Corps, the Women's Reserve branch of the Naval Reserve, the Marine Corps Women's Reserve, and the Coast Guard Reserve, including the Coast Guard Women's Reserve. Personnel serving with the Army Specialist Corps are not within the scope of the exemption. For the purposes of this section the term "member of the military or naval forces of any of the other United Nations" shall mean any individual whose duties in the service of any of the United Nations other than the United States correspond to those of any member of the military or naval forces of the United States as defined in this section.

A person is in active service if he is actually serving in such forces, not necessarily in the field or in the theater of war. Personnel in the inactive reserve or on retirement are not in active service. Periods during which a person is absent from duty on account of sickness, wounds, leave, internment by the enemy, or other lawful cause are periods of active service.

In the case of a husband and wife domiciled in a State recognized for Federal income tax purposes as a community property State, any exclusion from gross income under section 22 (b) (13) operates before apportionment of the gross income of the spouses in accordance with community property laws. For example, a man and his wife are domiciled in such a State and he is entitled to the benefit of the exclusion under section 22 (b) (13) as a commissioned officer of the armed forces. He receives during 1943 compensation for active service in such forces in the amount of \$2,000. Of such amount only \$500 is taken into account in determining the gross income of both husband and wife.

PAR. 3. There is inserted immediately preceding Subpart H the following:

SEC. 142. DEFERMENT OF CERTAIN TAXES OF VETERANS AND SERVICEMEN. (Revenue Act of 1945, approved November 8, 1945.)

(a) *In general.* Chapter 38 (miscellaneous provisions) is amended by inserting at the end thereof a new section reading as follows:

SEC. 3808. DEFERMENT OF TAX ATTRIBUTABLE TO SERVICE PAY FOR COMMISSIONED SERVICE AND OF TAX ATTRIBUTABLE TO PRE-SERVICE EARNED INCOME.

(a) *Definitions.* As used in this section:

(1) *Tax attributable to service pay.* The term "tax attributable to service pay" means:

(A) In the case of a war year for which the taxpayer had no gross income other than compensation for active service as a member of the military or naval forces of the United States, the tax imposed under chapter 1 for such year; or

(B) In the case of a war year for which the taxpayer had gross income in addition to compensation for active service as a member of the military or naval forces of the United States, the excess of the tax imposed under chapter 1 for such year over the tax that would have been imposed if such compensation had been excluded from gross income;

except that in the case of a commissioned officer (or a commissioned warrant officer) of the regular component of the Army, Navy, Marine Corps, or Coast Guard, such term shall not apply to any war year unless, at the time prescribed for the payment of the tax under chapter 1 for such year, a period of time was being disregarded under section 3804.

(2) *War year.*—The term "war year." (A) When used with respect to the tax attributable to service pay means any taxable year beginning after December 31, 1939, and before January 1, 1947;

(4) *First installment date.* The term "first installment date" means May 15, 1946, in the case of taxpayers released from active duty in the military or naval forces of the United States prior to December 1, 1945; and in other cases June 15, 1947, or the fifteenth day of the sixth month which begins after the date of the taxpayer's release from active duty in such forces, whichever is the earlier; except that, if the first installment date with respect to any war year would otherwise occur earlier than the fifteenth day of the third month following the close of such year, the first installment date with respect to such year shall be the fifteenth day of such third month.

(b) *Extension of time for payment.* Upon application with respect to any war year, made prior to the first installment date, and under regulations prescribed by the Commissioner with the approval of the Secretary: (1) the time for payment of an amount of the tax under chapter 1 for such year which is equal to the tax attributable to service pay for such year and which has not been paid before the filing of such application;

shall, in lieu of the time otherwise applicable, be as follows: one-twelfth thereof on the first installment date and an additional twelfth thereof every three months thereafter until such tax is paid.

(c) *Suspension of period of limitation.* The running of the period of limitation provided in section 276 (c) (relating to the collection of the tax after assessment) in respect of any tax the time for the payment of which is prescribed under subsection (b), shall be suspended for the period beginning with the date of the filing of the application under such subsection and ending six months after the date prescribed therein for the payment of the last installment of such tax.

(d) *Estimated tax.* If the taxpayer is eligible for the benefits of subsection (b) with respect to any war year:

(1) For the purposes of the application of section 58 with respect to such year, compensation for active service as a member of the military or naval forces of the United States may be disregarded in determining the gross income reasonably expected for such year, and in determining the estimated tax for such year; and

(2) For the purposes of section 294 (d) the tax for such year shall be determined as if such compensation were excluded from gross income.

This subsection shall not apply with respect to a taxpayer for any war year who at the time prescribed for making the declaration of estimated tax for such year is a commissioned officer (or a commissioned warrant officer) of the regular component of the Army, Navy, Marine Corps, or Coast Guard.

(b) *Refund of interest paid.* Any interest paid prior to the date of the enactment of this Act with respect to tax attributable to service pay for any war year, or with respect to tax attributable to pre-service earned income for any war year, shall be credited or refunded if claim therefor is filed with the Commissioner prior to January 1, 1947.

§ 29.3803-1 *Deferment of certain taxes of members of the military or naval forces.*—(a) *In general.* Section 3808 provides that, in the case of members of the military or naval forces of the United States, that portion of the tax under chapter 1 which is attributable to service pay for a war year, may, in lieu of the time otherwise prescribed by law, be paid in 12 equal quarter-annual installments beginning with the "first installment date". As to what constitutes the "first installment date" for the purposes of section 3808 see § 29.3808-2.

The term "war year" as defined in section 3808 (a) (2) means, in the case of tax attributable to service pay, any taxable year beginning after December 31, 1939, and before January 1, 1947.

For the purposes of section 3808 the military or naval forces of the United States include (but are not necessarily limited to) the Army, the Navy, the Marine Corps, the Coast Guard, the Army Nurse Corps, Female, the Navy Nurse Corps, Female, the Women's Army Auxiliary Corps or the Women's Army Corps, the Women's Reserve branch of the Naval Reserve, the Marine Corps Women's Reserve, and the Coast Guard Reserve, including the Coast Guard Women's Reserves. Such forces do not include the Army Specialist Corps.

Section 3808 is applicable only to the individual who performs service as a member of the military or naval forces of the United States. Hence, it has no application to the spouse of such individual, unless the spouse also performs such service.

Nothing contained in section 3808 of these regulations shall be construed to require payment of the tax for any taxable year before the postponed due date of the tax for such year under section 3804, if such section is applicable, nor before the last day of any period of extension allowed under the provisions of section 513 of the Soldiers' and Sailors' Civil Relief Act of 1940.

(b) *Application for deferred payments.* In order to obtain the privilege of deferred payments under section 3808 with respect to tax for a taxable year, the taxpayer must make written appli-

cation, prior to the first installment date, to the collector of internal revenue for the district in which the return for such taxable year is filed. No particular form is required but the application should contain a complete statement of the facts necessary to determine the taxpayer's eligibility for the benefits of section 3808, the taxable years and the amounts of tax involved, and the due date of the first payment. The essential facts include:

(1) Rank and organization.

(2) Whether the taxpayer is an officer of the regular component of the Army, Navy, Marine Corps or Coast Guard.

(3) Date of induction or entrance into armed forces.

(4) Date of release from active duty, if so released.

(5) If the taxpayer performed service outside the continental United States or on sea duty, the date on which the taxpayer left the continental United States or commenced to serve on sea duty and the date on which he returned to the continental United States or ceased to serve on sea duty.

(6) If, under the provisions of section 513 of the Soldiers' and Sailors' Civil Relief Act, an extension of time for payment of the tax for a war year has been granted, the date upon which such period of extension expires.

(7) The amount of tax for which deferment is claimed for each taxable year involved.

(c) *Interest.* If deferred payments are authorized under the provisions of section 3808, $\frac{1}{2}$ of the tax in respect of which deferment is authorized is payable on the first installment date, $\frac{1}{2}$ thereof on the corresponding date of the third month following the first installment date, and $\frac{1}{2}$ on the corresponding date of each succeeding third month after the preceding installment date until the full amount of the tax is paid.

No interest shall be charged or paid if the tax is paid upon the prescribed dates. Interest at the rate of 6 percent per annum shall be charged on installments not paid at the time prescribed from the date the installment became due until the installment is paid. If the taxpayer fails to pay an installment of the tax on the prescribed date, such failure shall not accelerate the due date of the remaining installments.

Any interest paid prior to November 8, 1945, on that portion of the tax for any taxable year which could be deferred under the provisions of section 3808 shall be credited or refunded to the taxpayer, if claim therefor is filed prior to January 1, 1947, with the collector of internal revenue as the authorized representative of the Commissioner.

(d) *Suspension of period of limitation.* If deferred payments in respect of the tax for any taxable year are authorized in accordance with the provisions of section 3808, the running of the period of limitations under section 276 (c) on the collection of such tax is suspended for the period beginning with the date of filing of the application under section 3808 (b) and ending six months after the date prescribed for payment of the last installment of such tax.

§ 29.3808-2 *First installment date—*
(a) *General rule.* Under the definition contained in section 3808 (a) (4), if neither section 3804 and the regulations thereunder nor section 513 of the Soldiers' and Sailors' Civil Relief Act is applicable, the "first installment date" with respect to tax for a war year is as follows:

(1) *Taxpayers released from active duty prior to December 1, 1945.* In the case of taxpayers released from active duty in the military or naval forces of the United States prior to December 1, 1945, the first installment date with respect to tax for a war year is May 15, 1946, or the 15th day of the third month following the close of such war year, whichever is the later.

(2) *Other taxpayers.* In the case of taxpayers released from active duty in the military or naval forces of the United States on or after December 1, 1945, and in the case of taxpayers who have not been released from such active duty, the first installment date with respect to tax for a war year is (i) June 15, 1947, or (ii) the 15th day of the sixth month which begins after the date of the taxpayer's release from active duty, whichever is the earlier, but in no case shall the first installment date be earlier than the 15th day of the third month following the close of such war year. In the case of taxpayers who make their returns on a calendar year basis the "first installment date", if neither section 3804 and the regulations thereunder nor section 513 of the Soldiers' and Sailors' Civil Relief Act is applicable, is as follows:

CALENDAR YEARS 1940 TO 1945, INCLUSIVE

Released from active duty:	First installment date
Before Dec. 1, 1945.....	May 15, 1946.
On or after Dec. 1, 1945, but not later than Nov. 30, 1946.....	15th day of sixth month which begins after date of release.
On or after Dec. 1, 1946.....	June 15, 1947.

CALENDAR YEAR 1946

Released from active duty:	First installment date
Before October 1, 1946....	March 15, 1947.
During October 1946.....	April 15, 1947.
During November 1946....	May 15, 1947.
On or after Dec. 1, 1946....	June 15, 1947.

(b) *Special provisions.* If, by reason of service on sea duty or outside the continental United States, the due date of the tax for a war year is postponed under the provisions of section 3804 and the regulations thereunder or, if collection of the tax for a war year is deferred under the provisions of section 513 of the Soldiers' and Sailors' Civil Relief Act, the "first installment date" may be later than the date determined under the general rule set forth in § 29.3808-2 (a). In such event the first installment date with respect to tax for such war year shall be whichever of the following is the latest:

(1) The date determined under § 29.3808-2 (a), or

(2) The postponed due date of the tax determined under section 3804 and the regulations thereunder, or

(3) The last day of the period of deferment allowed under section 513 of the Soldiers' and Sailors' Civil Relief Act.

§ 9.3808-3 *Tax attributable to service pay.* The term "tax attributable to service pay" is used in section 3808 to characterize that portion of the tax imposed under chapter 1 for a war year which results from the inclusion in gross income of the compensation for active service as a member of the military or naval forces of the United States. Under the definition contained in section 3808 (a) (1) the term "tax attributable to service pay" for a war year means:

(a) If the taxpayer had no gross income for such war year other than the compensation for active service in such forces, the tax imposed under chapter 1, or

(b) If the taxpayer had gross income for such war year in addition to the compensation for active service in such forces, the excess of the tax imposed under chapter 1 for such year over the tax that would be imposed were such compensation excluded from the gross income.

A member of the military or naval forces of the United States is in active service if he is actually serving in such forces, not necessarily in the field or in the theater of war. Personnel in the inactive reserve or on retirement are not in active service. Periods during which a person is absent from duty on account of sickness, wounds, leave, internment by the enemy, or other lawful cause are periods of active service.

In computing the amount of the "tax attributable to service pay" for a war year the tax imposed under chapter 1 shall be determined without regard to the credit under section 31 for taxes paid to a foreign country or a possession of the United States and without regard to the credits provided in sections 32 and 35 for taxes withheld at the source.

For the purposes of section 3808, the term "tax attributable to service pay" has no application to commissioned officers of the regular component of the Army, Navy, Marine Corps, or Coast Guard for any war year unless, by reason of service on sea duty or outside the continental United States, the due date of the tax for such year is postponed under the provisions of section 3804 and the regulations thereunder. For example, a commissioned officer of the regular component of the Army was assigned to duty in Great Britain in February 1942 and served continuously in the European theater thereafter until he returned to the United States in July 1945. Assuming that the officer makes his returns on the calendar year basis, the regular due dates of the taxes under chapter 1 for the war years 1942 to 1944, inclusive, fall prior to January 15, 1946, which is the 15th day of the sixth month after the date of his return to the United States. Accordingly, under the provisions of section 3804, the due dates of the taxes for the taxable years 1942 to 1944, inclusive, are postponed and the taxpayer is eligible for the benefits of section 3808 with respect to the taxes for such years. However, inasmuch as the regular due date of the tax for the taxable year 1945 is March 15, 1946, and such date is later than January 15, 1946, there is no postponement of the due date

of the tax for such taxable year under the provisions of section 3804 and payment of the tax for 1945 may not be deferred under the provisions of section 3808.

The computation of the "tax attributable to service pay" may be illustrated by the following example:

Example. Captain B, a reserve officer in the United States Navy, is a married man and has no dependents. During the calendar years 1942 and 1943 he received compensation for active service on sea duty. His base pay amounts to \$1,500 in 1942 and \$4,000 in 1943. In addition to his service pay, he received income in the form of dividends which amounts to \$6,000 in each of the calendar years 1942 and 1943. His allowable deductions for each year for income tax purposes amount to \$400 and he had no Victory tax deductions. His wife had no income or deductions for either year. His tax liability for the calendar year 1943 and the amount of such tax attributable to service pay is computed as follows:

§ 29.3808-4 Estimated tax for war years. Section 3808 (d) contains special rules for the application of section 58, relating to declarations of estimated tax, and section 294 (d), relating to penalties in connection with estimated tax, in the case of certain members of the military or naval forces of the United States who are eligible for the benefit of deferred payments under section 3808. Under the rules prescribed, if all or part of the tax under chapter 1 for a war year could be deferred under the provisions of section 3808, the amount of the compensation for active service as a member of the military or naval forces of the United States shall not be taken into account:

(a) In determining the gross income reasonably expected for such year for the purpose of ascertaining whether a declaration of estimated tax is required under the provisions of section 58 (a);

(b) In determining the amount of the estimated tax for such year under the provisions of section 58 (b); and

(c) In determining the amount of the tax for such year for the purposes of section 294 (d), relating to penalties in connection with estimated tax.

If the taxpayer is eligible for the benefits of section 3808 the provisions of section 3808 (d) are applicable even though the taxpayer does not take advantage of the authorized deferment or does not make application therefor.

The provisions of section 3808 (d) and this section have no application to a member of the military or naval forces who at the time prescribed for making the declaration of estimated tax for a taxable year is a commissioned officer (or a commissioned warrant officer) of the regular component of the Army, Navy, Marine Corps, or Coast Guard.

PAR. 4. There is inserted immediately preceding § 19.22 (b) (13)-1 the following:

SEC. 141. ADDITIONAL ALLOWANCE FOR MILITARY AND NAVAL PERSONNEL. (Revenue Act of 1945.)

(a) In general. Section 22 (b) (13) (relating to the exclusion from gross income for military and naval personnel) is amended to read as follows:

(13) Additional allowance for military and naval personnel.

(B) Compensation received during any taxable year and before the termination of the present war as proclaimed by the President, for active service as a member below the grade of commissioned officer (or commissioned warrant officer) in the military or naval forces of the United States during such war.

(b) Taxable years to which applicable.— * * * subparagraph (B) * * * shall be applicable with respect to taxable years beginning after December 31, 1940.

(c) Credits or refunds for 1941 and 1942. If at any time prior to January 1, 1947, the allowance of a credit or refund of an overpayment of the tax for any taxable year beginning after December 31, 1940, and before January 1, 1943, is otherwise prevented by the operation of any law or rule of law (other than section 3761, relating to compromises), a credit or refund of the overpayment of such tax to the extent that the overpayment is attributable to the enactment of this section may, nevertheless, be allowed or made if a claim therefor is filed before January 1, 1947.

PAR. 5. Section 19.22 (b) (13)-1, as amended by Treasury Decision 5297, approved September 20, 1943, is further amended to read as follows:

§ 19.22 (b) (13)-1 Compensation of members of military and naval forces. In addition to the exemptions and credits otherwise applicable, there shall be excluded from gross income the entire amount of the compensation received in a taxable year beginning after December 31, 1940, for active service as a member below the grade of commissioned officer (or commissioned warrant officer) of the military or naval forces of the United States.

The exclusion from gross income under section 22 (b) (13) and this section is applicable only to compensation received prior to termination of the present war to be fixed by proclamation of the President. Such exclusion is applicable without regard to the marital status of the recipient of the compensation, and if a husband and wife both meet the requirements of the statute, then each is entitled to the benefit of an exclusion.

For the purposes of this section the military and naval forces of the United States include (but are not necessarily limited to) the Army, the Navy, the Marine Corps, the Coast Guard, the Army Nurse Corps, Female, the Navy Nurse Corps, Female, the Women's Army Auxiliary Corps or the Women's Army Corps, the Women's Reserve branch of the Naval Reserve, the Marine Corps Women's Reserve, and the Coast Guard Reserve, including the Coast Guard Women's Reserve. Personnel serving with the Army Specialist Corps are not within the scope of the exemption.

A person is in active service if he is actually serving in the military or naval forces, not necessarily in the field or in the theater of war. Personnel in the inactive reserve or on retirement are not in active service. Periods during which a person is absent from duty on account of sickness, wounds, leave, internment by the enemy, or other lawful cause are periods of active service.

In the case of a husband and wife domiciled in a State recognized for Federal income tax purposes as a community property State, any exclusion from gross income under section 22 (b) (13) operates before apportionment of the gross income of the spouses in accordance with community property laws.

The amount of any overpayment attributable to the application of section 22 (b) (13) to a taxable year beginning in 1941 shall be refunded or credited if a claim therefor is filed before January 1, 1947. Such refund or credit shall be allowed notwithstanding the operation of any provision of law (other than section 3761, relating to compromises) or rule of law. Such provisions or rules of law include, for example, statutes of limitations and *res judicata*.

PAR. 6. There is inserted immediately after subsection (f) of section 3801 the following:

SEC. 142. DEFERMENT OF CERTAIN TAXES OF VETERANS AND SERVICEMEN. (Revenue Act of 1945).

(a) In general. Chapter 38 (miscellaneous provisions) is amended by inserting at the end thereof a new section reading as follows:

SEC. 3808. DEFERMENT OF TAX ATTRIBUTABLE TO SERVICE PAY FOR COMMISSIONED SERVICE AND OF TAX ATTRIBUTABLE TO PRE-SERVICE EARNED INCOME.

(a) Definitions. As used in this section:

(1) Tax attributable to service pay. The term "tax attributable to service pay" means:

(A) In the case of a war year for which the taxpayer had no gross income other than compensation for active service as a member of the military or naval forces of the United States, the tax imposed under chapter 1 for such year; or

(B) In the case of a war year for which the taxpayer had gross income in addition to compensation for active service as a member of the military or naval forces of the United States, the excess of the tax imposed under chapter 1 for such year over the tax that would have been imposed if such compensation had been excluded from gross income;

except that in the case of a commissioned officer (or a commissioned warrant officer) of the regular component of the Army, Navy, Marine Corps, or Coast Guard, such term shall not apply to any war year unless, at the time prescribed for the payment of the tax under chapter 1 for such year, a period of time was being disregarded under section 3804.

(2) War year. The term "war year":

(A) When used with respect to the tax attributable to service pay means any taxable year beginning after December 31, 1939, and before January 1, 1947; and

(B) When used with respect to the tax attributable to pre-service earned income means any taxable year beginning after December 31, 1939, but before January 1, 1942, and before the taxpayer entered upon active service as a member of the military or naval forces of the United States, but does not include any year unless part of the tax imposed by chapter 1 for such year became due and payable after the taxpayer entered upon such active service.

(3) Tax attributable to pre-service earned income. The term "tax attributable to pre-service earned income" means the excess of the tax imposed by chapter 1 for any war year over the tax that would have been imposed for such year if there had been excluded from the net income for such year the amount of the earned net income (as such term was defined in section 25 (a) (4) as in force with respect to such year, except that in computing such earned net income, compensation for active service in such forces shall be disregarded).

(4) First installment date. The term "first installment date" means May 15, 1946, in the case of taxpayers released from active duty in the military or naval forces of the United States prior to December 1, 1945; and in other cases June 15, 1947, or the fifteenth day of the sixth month which begins after the date of the taxpayer's release from active duty in such forces, whichever is the earlier; except that, if the first installment date with respect to any war year would otherwise occur earlier than the fifteenth day of the third month following the close of such year, the first installment date with respect to such year shall be the fifteenth day of such third month.

(b) Extension of time for payment. Upon application with respect to any war year, made prior to the first installment date, and under regulations prescribed by the Commissioner with the approval of the Secretary:

(1) The time for payment of an amount of the tax under chapter 1 for such year which is equal to the tax attributable to service pay for such year and which has not been paid before the filing of such application; and

(2) The time for the payment of an amount of the tax under chapter 1 for such year which is equal to the tax attributable to pre-service earned income for such year and which has not been paid before the filing of such application,

shall, in lieu of the time otherwise applicable, be as follows: one-twelfth thereof on the first installment date and an additional twelfth thereof every three months thereafter until such tax is paid.

(c) Suspension of period of limitation. The running of the period of limitation provided in section 276 (c) (relating to the collection of the tax after assessment) in respect of any tax the time for the payment of which is prescribed under subsection (b), shall be suspended for the period beginning with the date of the filing of the application under such subsection and ending six months after the date prescribed therein for the payment of the last installment of such tax.

(b) Refund of interest paid. Any interest paid prior to the date of the enactment of this Act with respect to tax attributable to service pay for any war year, or with respect to tax attributable to pre-service earned income for any war year, shall be credited or refunded if claim therefor is filed with the Commissioner prior to January 1, 1947.

§ 19.3808-1 Deferment of certain taxes of members of the military or naval forces.—(a) In general. Section 3808 provides that, in the case of members of the military or naval forces of the United States, that portion of the tax under chapter 1 which is attributable to service pay for a war year or to pre-service earned income for a war year, may, in lieu of the time otherwise prescribed by law, be paid in 12 equal quarter-annual installments beginning with the "first installment date." As to what constitutes the "first installment date" for the purposes of section 3808 see § 19.3808-2.

The term "war year" as defined in section 3808 (a) (2) means, in the case of tax attributable to service pay, any taxable year beginning after December 31, 1939, and before January 1, 1947. In the case of the tax attributable to pre-service earned income, the term means any taxable year beginning after December 31, 1939, but before January 1, 1942, and before the taxpayer entered upon active service as a member of the armed forces

of the United States, but does not include any taxable year unless part of the tax imposed by chapter 1 for such taxable year became due and payable after the taxpayer entered upon such active service.

For the purposes of section 3808 the military or naval forces of the United States include (but are not necessarily limited to) the Army, the Navy, the Marine Corps, the Coast Guard, the Army Nurse Corps, Female, the Navy Nurse Corps, Female, the Women's Army Auxiliary Corps or the Women's Army Corps, the Women's Reserve branch of the Naval Reserve, the Marine Corps Women's Reserve, and the Coast Guard Reserve, including the Coast Guard's Women's Reserve. Such forces do not include the Army Specialist Corps.

Section 3808 is applicable only to the individual who performs service as a member of the military or naval forces of the United States. Hence, it has no application to the spouse of such individual, unless the spouse also performs such service.

Nothing contained in section 3808 or these regulations shall be construed to require payment of the tax for any taxable year before the postponed due date of the tax for such year under section 3804, if such section is applicable, nor before the last day of any period of extension allowed under the provisions of section 513 of the Soldiers' and Sailors' Civil Relief Act of 1940.

(b) Application for deferred payments. In order to obtain the privilege of deferred payments under section 3808 with respect to tax for a taxable year, the taxpayer must make written application, prior to the first installment date, to the collector of internal revenue for the district in which the return for such taxable year is filed. No particular form is required but the application should contain a complete statement of the facts necessary to determine the taxpayer's eligibility for the benefits of section 3808, the taxable years and the amounts of tax involved, and the due date of the first payment. The essential facts include:

(1) Rank and organization.

(2) Whether the taxpayer is an officer of the regular component of the Army, Navy, Marine Corps or Coast Guard.

(3) Date of induction or entrance into armed forces.

(4) Date of release from active duty, if so released.

(5) If the taxpayer performed service outside the continental United States or on sea duty, the date on which the taxpayer left the continental United States or commenced to serve on sea duty and the date on which he returned to the continental United States or ceased to serve on sea duty.

(6) If, under the provisions of section 513 of the Soldiers' and Sailors' Civil Relief Act, an extension of time for payment of the tax for a war year has been granted, the date upon which such period of extension expires.

(7) The amount of tax for which deferment is claimed for each taxable year involved.

(c) Interest. If deferred payments are authorized under the provisions of section 3808, 1/12 of the tax in respect of

which deferment is authorized is payable on the first installment date, 1/12 thereof on the corresponding date of the third month following the first installment date, and 1/12 on the corresponding date of each succeeding third month after the preceding installment date until the full amount of the tax is paid.

No interest shall be charged or paid if the tax is paid upon the prescribed dates. Interest at the rate of 6 percent per annum shall be charged on installments not paid at the time prescribed from the date the installment became due until the installment is paid. If the taxpayer fails to pay an installment of the tax on the prescribed date, such failure shall not accelerate the due date of the remaining installments.

Any interest paid prior to November 8, 1945, on that portion of the tax for any taxable year which could be deferred under the provisions of section 3808 shall be credited or refunded to the taxpayer, if claim therefor is filed prior to January 1, 1947, with the collector of internal revenue as the authorized representative of the Commissioner.

(d) *Suspension of period of limitation.* If deferred payments in respect of the tax for any taxable year are authorized in accordance with the provisions of section 3808, the running of the period of limitations under section 276 (c) on the collection of such tax is suspended for the period beginning with the date of filing of the application under section 3808 (b) and ending six months after the date prescribed for payment of the last installment of such tax.

§ 19.3808-2 First installment date—

(a) *General rule.* Under the definition contained in section 3808 (a) (4), if neither section 3804 and the regulations thereunder nor section 513 of the Soldiers' and Sailors' Civil Relief Act is applicable, the "first installment date" with respect to tax for a war year is as follows:

(1) *Taxpayers released from active duty prior to December 1, 1945.* In the case of taxpayers released from active duty in the military or naval forces of the United States prior to December 1, 1945, the first installment date with respect to tax for a war year is May 15, 1946, or the 15th day of the third month following the close of such war year, whichever is the later.

(2) *Other taxpayers.* In the case of taxpayers released from active duty in the military or naval forces of the United States on or after December 1, 1945, and in the case of taxpayers who have not been released from such active duty, the first installment date with respect to tax for a war year is (i) June 15, 1947, or (ii) the 15th day of the sixth month which begins after the date of the taxpayer's release from active duty, whichever is the earlier, but in no case shall the first installment date be earlier than the 15th day of the third month following the close of such war year.

In the case of taxpayers who make their returns on a calendar year basis the "first installment date", if neither section 3804 and the regulations thereunder nor section 513 of the Soldiers' and Sailors' Civil Relief Act is applicable, is as follows:

Released from active duty:

Calendar Years 1940 and 1941	First installment date
Before Dec. 1, 1945.....	May 15, 1946.
On or after Dec. 1, 1945, but not later than Nov. 30, 1946.....	15th day of 6th month which begins after date of release.
On or after Dec. 1, 1946.....	June 15, 1947.

(b) *Special provisions.* If, by reason of service on sea duty or outside the continental United States, the due date of the tax for a war year is postponed under the provisions of section 3804 and the regulations thereunder or, if collection of the tax for a war year is deferred under the provisions of section 513 of the Soldiers' and Sailors' Civil Relief Act, the "first installment date" may be later than the date determined under the general rule set forth in § 19.3808-2 (a). In such event the first installment date with respect to tax for such war year shall be whichever of the following is the latest:

(1) The date determined under § 19.3808-2 (a), or

(2) The postponed due date of the tax determined under section 3804 and the regulations thereunder, or

(3) The last day of the period of deferment allowed under section 513 of the Soldiers' and Sailors' Civil Relief Act.

§ 19.3808-3 *Tax attributable to service pay.* The term "tax attributable to service pay" is used in section 3808 to characterize that portion of the tax imposed under chapter 1 for a war year which results from the inclusion in gross income of the compensation for active service as a member of the military or naval forces of the United States. Under the definition contained in section 3808 (a) (1) the term "tax attributable to service pay" for a war year means:

(a) If the taxpayer had no gross income for such war year other than the compensation for active service in such forces, the tax imposed under chapter 1, or

(b) If the taxpayer had gross income for such war year in addition to the compensation for active service in such forces, the excess of the tax imposed under chapter 1 for such year over the tax that would be imposed were such compensation excluded from the gross income.

A member of the military or naval forces of the United States is in active service if he is actually serving in such forces, not necessarily in the field or in the theater of war. Personnel in the inactive reserve or on retirement are not in active service. Periods during which a person is absent from duty on account of sickness, wounds, leave, internment by the enemy, or other lawful cause are periods of active service.

In computing the amount of the "tax attributable to service pay" for a war year the tax imposed under chapter 1 shall be determined without regard to the credit under section 31 for taxes paid to a foreign country or a possession of the United States and without regard to the credits provided in section 32 for taxes withheld at the source.

For the purposes of section 3808, the term "tax attributable to service pay" has no application to commissioned officers of the regular component of the Army, Navy, Marine Corps, or Coast Guard for any war year unless, by rea-

son of service on sea duty or outside the continental United States, the due date of the tax for such year is postponed under the provisions of section 3804 and the regulations thereunder. For example, a commissioned officer of the regular component of the Army was assigned to duty in Great Britain in February 1942 and served continuously in the European theater thereafter until he returned to the United States in July 1945. The regular due date of the tax under chapter 1 for the war year 1941 falls prior to January 15, 1946, which is the 15th day of the sixth month after the date of his return to the United States. Accordingly, under the provisions of section 3804, the due date of the tax for the taxable year 1941 is postponed and the taxpayer is eligible for the benefits of section 3808 with respect to the tax for such year.

The computation of the "tax attributable to service pay" may be illustrated by the following example:

Example. B, a reserve officer in the United States Army, is married and has no dependents. He makes his returns on the calendar year basis. He entered upon active duty with the armed forces in 1941 and during such year received compensation for active service in the amount of \$2,000. In addition to his service pay he received taxable dividends in the amount of \$6,000. His allowable deductions for 1941 amount to \$700. His wife had no income or deductions. His tax liability for the calendar year 1941 and the amount of such tax attributable to service pay is computed as follows:

Gross income.....	\$8,000
Less: Allowable deductions.....	700
Net income.....	7,300
Less: Personal exemption.....	1,500
Surtax net income.....	5,800
Less: Earned income credit (minimum).....	300

Surtax on \$5,800.....	534
Tax liability for 1941.....	754

Less: Service pay.....	2,000
Gross income (exclusive of service pay).....	6,000
Less: Allowable deductions.....	700

Total tax.....	422

Tax liability for 1941.....	\$754
Tax liability for 1941 if compensation for active service excluded.....	422

§ 19.3808-4 *Tax attributable to pre-service earned income.* The deferment provided in section 3808 for members of the military or naval forces of the United States with respect to tax attributable to pre-service earned income is applicable only to a war year as defined in section 3808 (a) (2) (B). See § 19.3808-1.

The term "tax attributable to pre-service earned income" means the excess of the tax imposed under chapter 1 for the taxable year over the tax that would be imposed if there were excluded from the net income for such year the amount of the earned net income. For the purpose of such computation the earned net income shall be determined in accordance with the provisions of section 25 (a) (4) under the law applicable to the taxable year, except that in computing the earned net income under such section compensation for active service in the armed forces shall not be taken into account. As to what constitutes earned net income, see § 19.25-2.

In computing the amount of the tax attributable to pre-service earned income for a war year, the tax imposed under chapter 1 shall be determined without regard to the credit under section 31 for taxes paid to a foreign country or a possession of the United States and without regard to the credit under section 32 for tax withheld at the source.

The application of this section may be illustrated by the following example:

Example. A, a married man with two dependent children, was employed as a sales representative in 1941. He received a salary of \$100 a week plus commissions on sales and paid his own traveling expenses. On July 1, 1941, he received a commission as colonel in the Army of the United States and in February 1942 he was transferred to Great Britain. A was returned to the United States in August 1945 and was released from active service in September 1945.

During the calendar year 1941 A was paid a total of \$18,000, salary and commissions, for his services as a salesman. During the same period he incurred expenses of \$3,700 for traveling, meals and lodging in connection with his employment. His base pay as a colonel in the Army for the latter half of 1941 amounted to \$2,000. During the calendar year 1941 he also received dividends of \$6,000, income from rents, \$2,200, and taxable interest in the amount of \$800. He paid \$3,800, State and local taxes, \$2,300, interest on a mortgage, and made contributions to various charitable organizations in the aggregate amount of \$1,650. His income tax liability for the calendar year 1941 is computed as follows:

Gross income:	
Salary and commissions (salesman).....	\$18,000
Compensation for service in armed forces.....	2,000
Dividends.....	6,000
Income from rents.....	2,200
Interest income.....	800
Total.....	29,000
Deductions:	
Taxes (State and local).....	3,800
Traveling expenses.....	3,700
Interest paid.....	2,300

Deductions—Continued.	
Contributions.....	\$1,650
Total.....	11,450
Net income.....	17,550
Less: Personal exemption.....	\$1,500
Credit for dependents.....	800
Surtax net income.....	15,250
Less: Earned income credit (maximum).....	1,400
Normal tax net income.....	13,850
Normal tax (4 percent of \$13,850).....	554
Surtax.....	2,800
Total tax.....	3,354

On February 1, 1946, A filed his income tax return for the calendar year 1941 and at the same time made application for deferred payments under section 3808 on that part of his tax attributable to service pay and to pre-service earned income. Under the facts stated the calendar year 1941 is a "war year" with respect to the tax attributable to service pay since it began after December 31, 1939, and before January 1, 1947. It is also a "war year" with respect to pre-service earned income since it began after December 31, 1939, and before January 1, 1942, and the entire amount of the tax for such year became due and payable after A entered active service as a member of the armed forces. Since A was discharged prior to December 1, 1945, the "first installment date" is May 15, 1946, unless he is entitled to the benefits of section 3804 and such date is earlier than the postponed due date under the latter section. Since A was outside the continental United States on March 15, 1942, the due date of the tax for 1941, and continuously thereafter until August 1945, the postponed due date under section 3804 is the 15th day of the sixth month following his return to the United States, or February 15, 1946. Hence, the "first installment date" is May 15, 1946, and the application for deferment under section 3808 is timely.

The amount of the tax for 1941 which is attributable to service pay for such year is computed as follows:

Gross income for 1941.....	\$29,000.00
Less: Service pay to be excluded.....	2,000.00
	\$27,000.00
Less: Deductions.....	11,450.00
Net income.....	15,550.00
Less: Personal exemption.....	1,500.00
Credit for dependents.....	800.00
	2,300.00
Surtax net income.....	13,250.00
Less: Earned income credit (maximum).....	1,400.00
Normal tax net income.....	11,850.00
Normal tax (4 percent of \$11,850).....	474.00
Surtax.....	2,182.50
Total tax.....	2,656.50
Total tax liability for 1941.....	3,354.00
Tax after service compensation excluded.....	2,656.50
Tax attributable to service compensation.....	697.50
The amount of the tax for 1941 which is attributable to pre-service earned income is computed as follows:	
Net income for 1941.....	\$17,550.00

Pre-service earned income:	
Earned income (disregarding service pay).....	\$18,000.00
Deductions attributable to earned income.....	3,700.00
Earned net income (before limitation).....	14,300.00
Earned net income (after limitation).....	14,000.00
Net income after exclusion.....	3,550.00
Less: Personal exemption.....	1,500.00
Credit for dependents.....	800.00
	2,300.00
Surtax net income.....	1,250.00
Less: Earned income credit (10 percent of earned net income or 10 percent of net income, whichever is smaller, but not less than \$300).....	300.00
Normal tax net income.....	950.00
Normal tax at 4 percent.....	38.00
Surtax.....	75.00
Total.....	113.00
Total tax liability.....	3,354.00
Tax if pre-service earned income excluded.....	113.00
Tax attributable to pre-service earned income.....	3,241.00
Tax subject to deferment	
Tax attributable to service compensation.....	697.00
Tax attributable to pre-service earned income.....	3,241.00
Total.....	3,938.50

Since the total tax liability for 1941, \$3,354.00, is less than \$3,938.50, the deferment applies to the total tax and the first installment of \$279.50 ($\frac{1}{2}$ of \$3,354) is due and payable on May 15, 1946.

(Sec. 62 of the Internal Revenue Code (53 Stat. 32; 26 U.S.C. 62) and sections 141 and 142 of the Revenue Act of 1945 (Pub. Law 214, 79th Cong.))

A statement of considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 120 is amended in the following respects:

Section 1340.210 (a) (19) is added to read as follows:

(19) (i) A producer operating an underground mine, loading coal inside the mine by both hand and machine methods but loading less than 25% of its produc-

tion by mechanical means, may file an application containing the information hereinafter set forth with the Solid Fuels Price Branch of the Office of Price Administration, Washington, D. C., requesting authorization to charge as his maximum price for all coals produced at such mine the maximum prices applicable to hand-loading mines in the producing district in which his mine is located.

(ii) Within fifteen days after filing the application or supplying such additional data as OPA may request, the producer may charge the maximum prices applicable to hand-loaded mines, unless he is advised by the Administrator, by order, that his application has been denied. The OPA may at any time revoke the authority herein granted.

(iii) Each producer, who has received authorization to charge the maximum prices applicable to hand-loaded mines pursuant to this paragraph, must report to the Solid Fuels Price Branch of the OPA, Washington, D. C., within ten days after the last day of each month, the percentage of hand and machine-loaded coals produced during the preceding month and the number and types of machines employed in loading coal inside the mine.

(iv) Each application filed pursuant to this paragraph must be filed by registered mail and must contain:

(a) Producer's name and address, mine name and mine index number, and the producing district in which the mine is located.

(b) A full description of the loading facilities inside the mine, including the number and types of loading machines employed or to be employed.

(c) The tonnages of coal mined during each of the preceding three months by method of mining, i. e., hand and machine. If loading machines are being employed for the first time, an estimate of the percentage of monthly production to be loaded by mechanical means.

PULPWOOD PRODUCED IN THE STATES OF MAINE, VERMONT, NEW HAMPSHIRE, NEW YORK AND THAT PORTION OF CONNECTICUT AND MASSACHUSETTS WEST OF THE CONNECTICUT RIVER

A statement of considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Maximum Price Regulation 361 is amended in the following respects:

1. In section 8 (a), subparagraph (18) is added to read as follows:

(18) "Logging services" includes all services in connection with the transportation and/or production of pulpwood up to the point where the pulpwood is sold to a consumer, as specified in Appendix A (a), subparagraph (4) below. It includes all operations in connection therewith, such as hauling, road and camp construction, felling, bucking, cutting, skidding, yarding, peeling, loading and reloading, trucking, etc. It also covers the transportation of gravel, building materials, machinery and the like when performed solely in connection with a logging operation. It does not include services rendered in connection with pulpwood after the pulpwood is sold to the consumer, as specified in Appendix A (a), subparagraph (4) below; the provisions of Maximum Price Regulation 565 apply to these latter services.

2. In Appendix A (a), subparagraph (4) is added to read as follows:

(4) Notwithstanding the provisions of Revised Maximum Price Regulation 165 or Maximum Price Regulation 565, any person may sell and any person may buy one or more logging services in connection with pulpwood to be sold under the regulation at prices acceptable to both parties: *Provided however*, That at the point where the pulpwood is sold to the consumer, the total of all the prices paid for the individual partial operations which comprise the complete operation plus the stumpage may not exceed the appropriate maximum price established under this regulation.

This amendment shall become effective April 22, 1946.

Issued this 16th day of April 1946.

[MPR 565, Amdt. 11]

PULPWOOD CONTRACT LOGGING SERVICES IN DESIGNATED STATES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 565 is amended in the following respects:

1. In section 1, paragraphs (c) and (d) are added to read as follows:

(c) (1) Notwithstanding the previous provisions of this regulation, a person may charge and a consumer may pay, a sum not to exceed the charge made by such person during the period May 1, 1944 to April 30, 1945, inclusive, for the same or similar service of driving, rafting and/or booming.

(2) In the event that a seller did not provide such service during the period specified above, such seller may charge and a consumer may pay for such service no more than the charge which the seller's closest competitor made for rendering the same or similar service during the period mentioned hereinbefore.

(3) In the event that a seller is unable to determine a maximum price for such services under subparagraphs (1) and (2) above, such seller shall submit an application for approval of a maximum price to the Paper & Paper Products Branch of the OPA, Washington, D. C. Such application shall set forth: (i) length of drive or tow; (ii) condition of stream bed and improvements; and (iii) volume of pulpwood to be moved.

Unless the Office of Price Administration or a duly authorized representative thereof shall, by letter order mailed to the applicant within 15 days from the filing of an application, approve, reject, adjust, amend, or extend the time within which to do any of the foregoing, such application shall be deemed to have been approved, subject to nonretroactive written rejection or adjustment at any later time by the Office of Price Administration.

For the purposes of this paragraph (c) "similar service" means the service rendered during the period May 1, 1944, to April 30, 1945, inclusive, which most closely resembles the prospective service to be performed from all of the following aspects: length of drive or tow, condition of stream bed and improvements, and the volume of pulpwood moved.

(d) Any person may sell and any person may buy one or more partial logging

services at prices acceptable to both parties: *Provided however*, That at the point where the pulpwood is delivered to the consumer, the total of all the prices paid for the individual partial operations which comprise the complete logging service may not exceed the appropriate maximum price or prices established under this regulation.

2. In section 9, paragraph (c) is amended to read as follows:

(c) Form of application, place and time of filing. All applications for adjustment filed under paragraph (a) (1) and (2) of this section must be filed in duplicate with the Paper and Paper Products Branch of the Office of Price Administration by the consumer and the contractor, jointly, except for the services of driving, booming, rafting and trucking which shall be filed in the above manner by the consumer only. At least 15 days prior to the commencement of any operation, all applications must be filed in the above manner on either OPA Form 08-R957 (complete logging service) or OPA Form 08-R956 (incomplete logging service) to show an estimated cost analysis, and shall be accompanied by copies of proposed contracts between the contractor and consumer except for the services of driving, booming, rafting and trucking. Prior to final settlement of any contract involving an adjustment under this section OPA Form 08-R957 (complete logging service) or OPA Form 08-R956 (incomplete logging service) to show an actual cost analysis, must be filed in the above manner, except for the services of driving, booming, rafting and trucking, in which cases the consumer shall file a statement that the contract has been completed and setting forth the actual price to be paid.

3. In section 10 (a), subparagraph (2) is amended to read as follows:

(2) "Contract Logging Services" covers only services rendered by independent contractors to consumers who own or control the stumpage involved. It does not include transactions where commodities, as distinguished from services, are sold; in that case, Revised Maximum Price Regulation 361 governs the transaction. The term "logging services" includes all services in connection with the transportation and/or production of pulpwood, including all operations in connection therewith, such as hauling, road and camp construction, felling, bucking, cutting, skidding, yarding, peeling, loading and reloading, driving, booming, rafting, trucking, etc. It covers the transportation of gravel, building materials, machinery and the like when performed solely in connection with a logging operation. It also includes driving, booming, rafting and trucking of pulpwood, after title to such pulpwood has been acquired by a consumer under Revised Maximum Price Regulation 361.

Notwithstanding the foregoing, "logging services" does not include the aforementioned services when such services are performed in connection with pulpwood which is later sold under Revised Maximum Price Regulation 361; in that case, the provisions of section 8 (a) (18),

¹ 9 F.R. 3343, 9 F.R. 7504, 14783.

² 9 F.R. 13206.

and Appendix A (a) (4) of Revised Maximum Price Regulation 361 apply.

This amendment shall become effective April 22, 1946.

NOTE: The reporting provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 16th day of April 1946.

[FPR 1, Amdt. 3 to Supp. 15]

CERTAIN FRUIT PRESERVES, JAMS AND JELLIES AND APPLE BUTTER

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.

Supplement 15 to Food Products Regulation No. 1 is amended in the following respects:

1. The table of contents preceding section 1 of the supplement is amended by adding under Article II a new section immediately following section 6 to read as follows:

6a. Recalculation of processors' maximum prices due to increased sugar costs.

2. A new section is added immediately following section 6 to read as follows:

SEC. 6a. *Recalculation of processors' maximum prices due to increased sugar costs*—(a) *Rule for refiguring maximum prices to reflect increased cost of sugar.* Any processor who prior to February 10, 1946, figured his maximum price for an item under section 4, 5 or 6 of this supplement (or who figured it under section 8 (a) on the basis of a price figured under section 4 or 5) and who on or after that date incurred an increase in the cost of sugar used in the item, shall refigure his maximum price under this section at such time as he has on hand no inventory of any portion of the item processed with sugar purchased or contracted for at or below maximum prices in effect under MPR 60² prior to February 10, 1946. However, any processor who between February 10, 1946 and April 16, 1946 figured a maximum price for an item under section 6 based on a direct cost of sugar at maximum prices in effect under MPR 60 on and after February 10, 1946, shall not refigure his maximum price under this section. In addition any processor who figures his maximum price for an item for the first time under section 6 on or after April 16, 1946 based on a direct cost of sugar at maximum prices in effect under MPR 60 on and after February 10, 1946 shall not figure a maximum price under this section.

For sales of the item to purchasers other than government procurement agencies, the processor shall figure his maximum price per dozen containers

or other unit, f. o. b. shipping point, as follows. He shall:

(1) *Start with maximum price for sales of the item to purchasers other than government procurement agencies.* The processor shall use as his starting point his maximum price for sales of the item to purchasers other than government procurement agencies as figured under sections 4, 5 or 6 of this supplement (or as figured under section 8 (a) on the basis of a price figured under section 4 or 5).

(2) *Add the increased cost of sugar converted to units of the finished product.* Next, the processor shall add the increased cost of sugar incurred by him on or after February 10, 1946, converted to cents per unit of the finished product for the sugar actually used by him in that portion of the item which is processed from sugar purchased on or after that date but not to exceed one-half cent per pound increase for the sugar so purchased and used.

The resulting figure is the processor's maximum price per dozen containers or other unit, f. o. b. shipping point, for sales of the item to purchasers other than government procurement agencies.

(b) *Reports to be filed under this section:* Before making any sales or deliveries to any purchaser of an item for which he refigures his maximum price under this section, the processor shall file with the Office of Price Administration, Washington, D. C., a report in duplicate and signed by him showing:

(1) A description in detail of the item being priced, including its grade and brand name (if any).

(2) His maximum price for the item as required to be figured under this supplement prior to April 16, 1946 (This will be the maximum price as required to be reported under section 9 or section 6 (e) of this supplement). Processors who have not filed the reports required under section 9 or 6 (e) shall in addition to the information required by this section, file the reports required by those sections.

(3) The actual increased cost per dozen containers or other unit resulting from his increased sugar cost.

(4) His maximum price per dozen containers or other unit, f. o. b. shipping point, for sales to purchasers other than government procurement agencies, after figuring his increased cost of sugar under the provisions of this section.

(5) An inventory showing that he does not have on hand any portion of the item, for which he is refiguring his price under this section, which was processed with sugar purchased or contracted for at maximum prices in effect under MPR 60 prior to February 10, 1946.

3. Section 10 is amended in the following respects:

a. The text of paragraph (a) (1) preceding subdivision (i) is amended to read as follows: "Either on his own motion or upon application in accordance with Revised Procedural Regulation No. 1,³ the Price Administrator may adjust a processor's maximum price for any item figured under section 4, 5, 6 or 6a of this supplement (or figured under section 8

(a) on the basis of a price figured under section 4 or 5) for sales to purchasers other than government procurement agencies, where it appears that:

b. The text of paragraph (b) (1) preceding subdivision (i) is amended to read as follows: "Either on his own motion or upon application in accordance with Revised Procedural Regulation No. 1, the Price Administrator may adjust a processor's maximum price for sales to government procurement agencies of any item figured under section 4, 5, 6 or 6 (a) (or figured under section 8 (a) on the basis of a price figured under section 4 or 5) after application of the provisions of section 8 (h), when the processor has entered into or proposed to enter a government contract or subcontract thereunder, where it appears that:

This amendment shall become effective April 16, 1946.

NOTE: All record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 16th day of April 1946.

amateur station that is so constructed that it may conveniently be transferred to or from a mobile unit or from one such unit to another, and is ordinarily used while such mobile unit is in motion.

§ 12.6 *Amateur radio communication.* The term "amateur radio communication" means radio communication between amateur stations solely with a personal aim and without pecuniary interest.

AMATEUR OPERATORS

Licenses; Privileges

§ 12.21 *Eligibility for license.* The following are eligible to apply for amateur operator license and privileges:

Class A—Any citizen of the United States who within five years prior to receipt of his application by the Commission has held, for a period of a year or more, an amateur operator license issued by the Commission.

Class B—Any citizen of the United States.

Class C—Any citizen of the United States whose actual residence, address, and amateur station are more than 125 miles airline distant from the nearest location at which examinations are held at intervals of not more than three months for class B amateur operator license; or who is shown by physician's certificate to be unable to appear for examination because of protracted disability; or who is shown by certificate of the commanding officer to be in the armed forces of the United States at a military, naval or Coast Guard station and, for that reason, to be unable to appear for examination at the time and place designated by the Commission.

§ 12.22 *Application for amateur operator license.* Each application for amateur operator license shall comply with the Commission's Rules and Regulations and shall be made in writing on Form 610 (application for amateur operator and/or station license). The application shall be filed with the district field office of the Commission if personal appearance is required for operator examination. If personal appearance is not required, the application shall be sent instead to the Commission, Washington 25, D. C. All applications for class C operating privileges shall be sent to the Commission, Washington 25, D. C.

§ 12.23 *Classification of operating privileges.* Amateur operating privileges are classified as follows:

Class A—All authorized amateur privileges.

Class B or C—All authorized amateur privileges except the use of type A-3 emission on the frequency bands 3900 to 4000 kc and 14150 to 14250 kc.

§ 12.24 *Scope of operator authority.* Amateur operator licenses are valid only for the operation of licensed amateur stations; and, on a temporary basis, for the operation of experimental stations (except class 2 stations) in the experimental service licensed for operation exclusively on a frequency or frequencies above 450 Mc if such services are performed without compensation, direct or indirect, paid or promised.

§ 12.25 *Availability of operator license.* The original operator license of each operator shall be kept in the personal possession of the operator while operating an amateur station. When operating an amateur station at a fixed location, however, the license may be posted in a conspicuous place in the room occupied by the operator. The license shall be available for inspection by any authorized government official whenever the operator is operating an amateur station and at other times upon request made by an authorized representative of the Commission, except when such license has been filed with application for modification or renewal thereof, or has been mutilated, lost, or destroyed, and application has been made for a duplicate license in accordance with § 12.26. No recognition shall be accorded to any photo-copy of an operator license.

§ 12.26 *Duplicate license.* Any licensee applying for a duplicate license to replace an original which has been lost, mutilated, or destroyed, shall submit with the application the mutilated license or a statement setting forth the facts regarding the manner in which the original license was lost or destroyed. If, subsequent to receipt by the licensee of the duplicate license, the original license is found, either the duplicate or the original license shall be returned immediately to the Commission.

§ 12.27 *Renewal of amateur operator license.* An amateur operator license may be renewed upon proper application showing that within the last six months of the license term the licensee has lawfully operated an amateur station or stations licensed by the Commission, and has thereby communicated by radio telegraphy with at least three other such amateur stations in the United States. The applicant shall qualify for a new license by examination if the requirements of this § 12.27 are not fulfilled. Application for renewal of an amateur operator license shall be filed not more than 120 days prior to date of expiration of such license and not later than the date of expiration.

§ 12.28 *Who may operate an amateur station.* An amateur station may be operated only by a person holding a valid amateur operator license, and then only to the extent provided for by the class of privileges granted under the license. When an amateur station is used for telephony, the station licensee may permit any person to transmit by voice, provided that during such transmission call signals are announced as prescribed by § 12.82 and a duly licensed amateur operator maintains actual control over the emissions, including turning the carrier on and off for each transmission and signing the station off after communication with each station has been completed.

§ 12.29 *License term.* An amateur operator license is valid normally for a period of 5 years from the date of issuance of a new, renewed, or modified license.

§ 12.30 *Order of suspension.* No order of suspension of any operator's license

shall take effect until 15 days' notice in writing thereof, stating the cause for the proposed suspension, has been given to the operator licensee who may make written application to the Commission at any time within said 15 days for a hearing upon such order. The notice to the operator licensee shall not be effective until actually received by him, and from that time he shall have 15 days in which to mail the said application. In the event that physical conditions prevent mailing of the application at the expiration of the 15-day period, the application shall then be mailed as soon as possible thereafter, accompanied by a satisfactory explanation of the delay. Upon receipt by the Commission of such application for hearing, said order of suspension shall be held in abeyance until the conclusion of the hearing which shall be conducted under such rules as the Commission shall deem appropriate. Upon the conclusion of said hearing the Commission may affirm, modify, or revoke said order of suspension.

§ 12.31 *Proceedings.* Proceedings for the suspension of an operator's license shall in all cases be initiated by the entry of an order of suspension. Respondent will be given notice thereof together with notice of his right to be heard and to contest the proceeding. The effective date of the suspension will not be specified in the original order but will be fixed by subsequent motion of the Commission in accordance with the conditions specified above. Notice of the effective date of suspension will be given respondent, who shall send his operator license to the office of the Commission in Washington, D. C., on or before the said effective date, or, if the effective date has passed at the time notice is received, the license shall be sent to the Commission forthwith.

Examinations

§ 12.41 *When examination is required.* Examination is required for the issuance of a new amateur operator license, and for a change in class of operating privileges. Credit may be given, however, for certain elements of examination as provided in § 12.64.

§ 12.42 *Elements of examination.* The examination for amateur operator privileges comprises the following:

Element 1—Code test: Ability to send and receive, in plain language, messages in the International Morse Code at a speed of not less than 13 words per minute, free of omission or other error for a continuous period of at least 1 minute, during a test period of 5 minutes, counting 5 characters to the word, each numeral or punctuation mark counting as 2 characters.

Element 2—Amateur radio operation and apparatus, including telephone and telegraph.

Element 3—Provisions of treaties, statutes, and regulations affecting amateurs.

Element 4—Advanced amateur telephony.

§ 12.43 *Elements required for various privileges.* The examination for Class A privileges will include all of the examination elements specified in § 12.42.

The examination for Class B and Class C privileges will include elements 1, 2, and 3 specified in § 12.42.

§ 12.44 *Manner of conducting examination.* The examinations for Class A and Class B privileges will be conducted by an authorized Commission employee or representative at locations and at times specified by the Commission.

Each examination for Class C privileges will be conducted and supervised by not more than two volunteer examiners, whom the Commission may designate or permit the applicant to select; in the event the examiner for the code test is selected by the applicant, such examiner shall be the holder of an amateur operator license with Class A or B operating privileges, or shall have held, within the 5 years prior to the date of the examination, a commercial radiotelegraph operator license issued by the Commission or within that time shall have been employed in the service of the United States as the operator of a manually operated radiotelegraph station. The examiner for the written test shall be at least twenty-one years of age.

§ 12.45 *Additional examination for holders of Class C operating privileges.* The Commission may require a licensee holding Class C operating privileges to appear for a Class B examination at a location designated by the Commission. If the licensee fails to appear for the Class B examination when directed to do so, or fails to pass such examination, the Class C operator license previously issued shall be subject to cancellation and, upon cancellation, a new license will not be issued for the Class C privileges.

Whenever the holder of Class C amateur operating privileges changes his actual residence or station location to a location where he would not have been eligible to apply for Class C privileges in the first instance, or whenever a new examining location is established in an area within which the holder of Class C amateur operating privileges would not have been eligible because of such examining location, to apply for Class C privileges, such holder of Class C privileges shall appear within 4 months thereafter at an examining location and time designated by the Commission and be examined for Class B privileges. If, under such circumstances, the licensee fails to appear for the Class B examination, or fails to pass such examination, the Class C operator license previously issued shall be subject to cancellation and, upon cancellation, a new license will not be issued for the Class C privileges.

§ 12.46 *Examination credit.* An applicant for Class A privileges who holds an amateur operator license authorizing Class B privileges will be required to pass only the examination element No. 4, advanced amateur telephony.

An applicant for Class A privileges will be given credit for examination element 4 if within two years prior to the receipt of his application by the Commission he held Class A privileges.

An applicant for any class of amateur privileges will be given credit for examination element one if within five years prior to the receipt of his application by

the Commission he held a radiotelegraph first or second class operator license.

No examination credit for other classes of licenses or privileges shall be allowed.

A holder of an amateur operator license authorizing Class C privileges will not thereby be accorded an abridged examination for either Class B or Class A privileges.

§ 12.47 Examination procedure. When taking an examination for amateur operator license, or for additional amateur operating privileges, the applicant shall write in longhand, by means of pen and ink. Diagrams shall be drawn either with pen and ink or with pencil; likewise, code tests shall be written with either pen and ink or with pencil. Applicants unable to comply with these requirements, because of physical disability, may dictate their answers to examination questions, and if unable to draw required diagrams, may dictate a detailed description essentially equivalent. If the examination or any part thereof is dictated, the examiner shall certify the nature of the applicant's disability and the name and address of the person(s) taking and transcribing the applicant's dictation.

§ 12.48 Grading. Code tests are graded as "passed" or "failed", separately for sending and receiving tests. Failure to pass the required code test for either sending or receiving will terminate the examination.

Seventy-four per cent is the passing grade for written examinations: For the purpose of grading, elements 2 and 3 (required for Class B and Class C privileges) are considered to be a single examination and element 4 (required, in addition to the other elements, for Class A privileges) is considered to be a separate examination.

§ 12.49 Eligibility for reexamination. An applicant who fails examination for amateur operator privileges may not take another examination for such privileges within 30 days, except that this limitation shall not apply to an examination for Class B operating privileges following an examination for Class C privileges.

AMATEUR RADIO STATIONS

Licenses

§ 12.61 Eligibility for amateur station license. A license for an amateur station will be issued in response to proper application therefor to a licensed amateur operator who has made a satisfactory showing of control of the transmitting station for which license is desired and of control of the specific premises upon which all of the station apparatus is to be located, at a designated fixed location. An amateur station license may be issued to an individual, not a licensed amateur operator (other than an alien or a representative of an alien or of a foreign government), who is in charge of a proposed amateur station located in approved public quarters and established for training purposes in connection with the armed forces of the United States, but not operated by the United States Government.

§ 12.62 Eligibility of corporations or organizations to hold license. An ama-

teur station license will not be issued to a school, company, corporation, association, or other organization, nor for their use except that in the case of a bona fide amateur radio organization or society a station license may be issued to a licensed amateur operator as trustee for such society.

§ 12.63 Application for amateur station license. (a) Each application for an amateur station license shall comply with the Commission's Rules and Regulations and shall be made in writing, subscribed and verified on Form 610 (application for amateur operator and/or station license). Form 602 should be used where the applicant is in charge of a proposed amateur station located in approved public quarters and established for training purposes in connection with the armed forces of the United States, but not operated by the United States Government.

(b) One application and all papers incorporated therein and made a part thereof shall be submitted for each amateur station license and shall be filed with the district field office of the Commission if personal appearance is required for operator examination in connection with the application for station license. If personal appearance is not required, the station application shall be sent to the Commission, Washington 25, D. C.

§ 12.64 Location of station. Only one fixed location will be authorized and designated in the license for each amateur station. Unless remote control of the transmitting apparatus is authorized, such apparatus shall be operated by a duly licensed amateur operator present at the location of such apparatus.

The granting of authority to operate by remote control is contingent upon the filing of a proper application, supported by (1) a showing of the applicant's control of the control point, (2) a description of the means which will be employed to control emission, (3) a description of the equipment and method for monitoring the emissions and (4) a statement of the precautions which will be taken to prevent access by unauthorized persons to the premises on which the controlled transmitting apparatus is located.

§ 12.65 License period. The license for an amateur station is valid normally for a period of 5 years from the date of issuance of a new, renewed, or modified license.

§ 12.66 Authorized apparatus. An amateur station license authorizes the use under control of the licensee of all transmitting apparatus at the fixed location specified in the station license which is operated on any frequency or frequencies allocated to the amateur service, and in addition authorizes the use, under control of the licensee, of portable and mobile transmitting apparatus operated at other locations.

§ 12.67 Renewal of amateur station license. An amateur station license may be renewed upon proper application filed not more than 120 days prior to date of expiration of such license and not later than the date of expiration.

§ 12.68 Availability of station license. The original license of each amateur station or a photo-copy thereof shall be posted in a conspicuous place in the room occupied by the licensed operator while the station is being operated at a fixed location or shall be kept in his personal possession. When the station is operated at other than a fixed location, the original station license or a photo-copy thereof shall be kept in the personal possession of the station licensee (or a licensed representative) who shall be present at the station while it is being operated as a portable or mobile station. The original station license shall be available for inspection by any authorized government official at all times while the station is being operated and at other times upon request made by an authorized representative of the Commission, except when such license has been filed with application for modification or renewal thereof, or has been mutilated, lost, or destroyed, and application has been made for a duplicate license in accordance with § 12.26.

§ 12.69 Revocation of station license. Whenever the Commission shall institute a revocation proceeding against the holder of any radio station license under § 312 (a), it shall initiate said proceeding by serving upon said licensee an order of revocation effective not less than 15 days after written notice thereof is given the licensee. The order of revocation shall contain a statement of the grounds and reasons for such proposed revocation and a notice of the licensee's right to be heard by filing with the Commission a written request for hearing within 15 days after receipt of said order. Upon filing of such written request for hearing by said licensee the order of revocation shall stand suspended and the Commission will set a time and place for hearing and shall give the licensee and other interested parties notice thereof. If no request for hearing on any order of revocation is made by the licensee against whom such an order is directed within the time hereinabove set forth, the order of revocation shall become final and effective, without further action of the Commission. When any order of revocation has become final, the person whose license has been revoked shall forthwith deliver the station license in question to the inspector in charge of the district in which the licensee resides.

§ 12.70 Modification of station license. (a) Whenever the Commission shall determine that public interest, convenience, and necessity would be served, or any treaty ratified by the United States will be more fully complied with, by the modification of any radio station license either for a limited time, or for the duration of the term thereof, it shall issue an order for such licensee to show cause why such license should not be modified.

(b) Such order to show cause shall contain a statement of the grounds and reasons for such proposed modification, and shall specify wherein the said license is required to be modified. It shall require the licensee against whom it is directed, to be and appear at a place and

time therein named, in no event to be less than 30 days from the date of receipt of the order to show cause why the proposed modification should not be made and the order of modification issued.

(c) If the licensee against whom the order to show cause is directed does not appear at the time and place provided in said order, a final order of modification shall issue forthwith.

Call Signals

§ 12.81 *Assignment of call signal.* (a) The calls of amateur stations will be assigned systematically by the Commission with the following exceptions:

(1) A specific unassigned call may be reassigned to the most recent holder thereof;

(2) A specific unassigned call may be assigned to a previous holder if not under license during the past five years;

(3) A specific unassigned call may be assigned to an amateur organization in memoriam to a deceased member and former holder thereof;

(4) A specific call may be temporarily assigned to a station connected with an event, or events, of general public interest.

(b) An amateur call will consist of a sequence of 1 or 2 letters, a numeral designating the call area, and 2 or 3 letters. The call areas are as follows:

No.

1. Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut.
2. New York, New Jersey.
3. Pennsylvania, Delaware, Maryland, District of Columbia.
4. Virginia, North and South Carolina, Georgia, Florida, Alabama, Tennessee, Kentucky, Puerto Rico and Virgin Islands.
5. Mississippi, Louisiana, Arkansas, Oklahoma, Texas, New Mexico.
6. California, Hawaii and Pacific possessions except those included in area 7.
7. Oregon, Washington, Idaho, Montana, Wyoming, Arizona, Nevada, Utah, Alaska and adjacent islands.
8. Michigan, Ohio, West Virginia.
9. Wisconsin, Illinois, Indiana.
- 0 (or zero). Colorado, Nebraska, North and South Dakota, Kansas, Minnesota, Iowa, Missouri.

§ 12.82 *Transmissions of call signals.*

(a) An operator of an amateur station shall transmit the call of the station called or being worked and the call assigned the station which he is operating at the beginning and end of each transmission and at least once every 10 minutes during every transmission of more than 10 minutes' duration. In the case of stations conducting an exchange of several transmissions in sequence, with each transmission less than 3 minutes' duration, the call of the communicating stations need be transmitted only once every 10 minutes of operation as well as at the beginning and at the termination of the correspondence.

(b) In addition to complying with the requirements of paragraph (a) of this section, an operator of an amateur station operated as a portable or mobile station using radiotelegraphy shall transmit immediately after the call of such station, the fraction-bar character (DN) followed by the number of the amateur call area in which the portable or mobile

amateur station is then being operated, as for example:

Example 1. Portable or mobile amateur station operating in the third amateur call area calls a fixed amateur station: W1ABC W1ABC W1ABC DE W2DEF DN 3 W2DEF DN 3 W2DEF DN 3 AR.

Example 2. Fixed amateur station answers the portable or mobile amateur station: W2DEF W2DEF W2DEF DE W1ABC K.

Example 3. Portable or mobile amateur station calls a portable or mobile amateur station: W3GHI W3GHI W3GHI DE W4JKL DN 4 W4JKL DN 4 W4JKL DN 4 AR.

When telephony is used, the call of the station shall be preceded by the words "this is" or the word "from" instead of the letters "de", followed by an announcement of the geographical location in which the portable or mobile station is being operated.

Example 4. Portable or mobile amateur radiotelephone station operating in the third call area calls a fixed amateur station: W1ABC W1ABC W1ABC "this is" or the word "from" W2DEF W2DEF W2DEF operating portable (or mobile) three miles north of Bethesda, Maryland, over.

(c) When telephony is used, the transmission of call prescribed by paragraphs (a) and (b) of this section may be made by the person transmitting by voice in lieu of a duly licensed operator provided the licensed operator maintains the control required by § 12.28.

(d) When using telephony, phonetic aids to identify the call of the station may be employed. To avoid confusion, however, the names of countries, states, or cities shall not be used for this purpose.

Portable and Mobile Stations

§ 12.91 *Requirements for portable and mobile operation.* An amateur station may be operated as a portable station on any authorized amateur frequency and as a mobile station on any authorized amateur frequency above 25 Mc.

§ 12.92 *Special provisions for portable stations.* Prior to operating an amateur station as a portable station, the licensee shall give written notice to the inspector in charge of the district in which the portable operation is intended. This notice shall state the station call, the name of the licensee, the date or dates of proposed operation, and the contemplated portable station location as specifically as possible. An amateur station operated under the provisions of this section shall not be operated during any period exceeding 1 month without giving additional notice to the inspector in charge of the radio inspection district in which the station is intended to be further operated, nor for more than 4 consecutive periods of 1 month each at the same location. This section does not apply to operation on frequencies above 25 Mc.

§ 12.93 *Special provisions for non-portable stations.* The specific provisions of these rules relative to portable stations are not applicable to a non-portable station except that:

(a) An amateur station that has been moved from one permanent location to another permanent location may be operated at the latter location, in accordance with the provisions governing portable

stations (including notice to the inspector in charge of the district in which the station is located) for a period not exceeding 4 consecutive months, but in no event beyond the expiration date of the license, provided a formal application for modification of license to change the permanent location has been filed with the Commission.

(b) The licensee of an amateur station who changes residence temporarily and moves his amateur station to a temporary location associated with his temporary residence, or the licensee-trustee for an amateur radio society which changes the normal location of its amateur station to a different and temporary location may use the station at the temporary location if the station is to remain there for a period of not more than 4 months and the following requirements are met:

(1) Advance notice in writing shall be given by the amateur station licensee or licensee-trustee to the Commission in Washington, D. C., and to the inspector in charge of the district in which the station is to be temporarily operated.

(2) Similar notice shall be given for each change in station location and for transfer of the station to the former permanent location, or to a new permanent location before the transmitting apparatus is operated.

(c) When the station is operated under the provisions of this section the calling procedure specified in § 12.82 shall be used, including transmissions of the fractional bar character when telegraphy is used followed by the number of the amateur call area in which the station is being operated. When telephony is used, an announcement shall be made of the geographical location in which the station is being operated.

Use of Amateur Stations

§ 12.101 *Points of communications.* An amateur station may be used to communicate only with other amateur stations, except that in emergencies or for test purposes it may also be used temporarily for communication with other classes of stations licensed by the Commission, and with United States Government stations. Amateur stations may also be used to communicate with any radio station other than amateur which is authorized by the Commission to communicate with amateur stations. Amateur stations may be used also for transmitting signals, or communications, or energy, to receiving apparatus for the measurement of emissions, temporary observation of transmission phenomena, radio control of remote objects, and for similar experimental purposes.

§ 12.102 *No remuneration for use of station.* An amateur station shall not be used to transmit or receive messages for hire, nor for communication for material compensation, direct or indirect, paid or promised.

§ 12.103 *Broadcasting prohibited.* An amateur station shall not be used for broadcasting any form of entertainment, nor for the simultaneous retransmission by automatic means of programs or signals emanating from any class of station other than amateur.

§ 12.104 *Radiotelephone tests.* The transmission of music by an amateur station is forbidden. However, single audio-frequency tones may be transmitted for test purposes of short duration for the development and perfection of amateur radiotelephone equipment.

Allocation of Frequencies

§ 12.111 *Frequencies for use of amateur stations.* (a) The following bands of frequencies¹ are allocated for use by amateur stations:

(1) *Below 25 Mc:*

1750 to 2050 kc.
3500 to 4000 kc.
7000 to 7300 kc.

(b) The band of frequencies 420 to 450 Mc is allocated for use by amateur stations (and temporarily by other services for special air navigational aids) subject to the limitation of 50 watts peak antenna power.

(c) The band of frequencies 235 to 240 Mc is allocated for use by amateur stations until January 1, 1949; the frequency band 220 to 225 Mc is allocated for use by amateur stations beginning January 1, 1949.

(d) Amateur stations may be operated with types A-0, A-1, A-2, A-3, A-4 and special emission for frequency modulation on the frequency band 27.185-27.455 Mc (allocated for operation of scientific, industrial and medical apparatus).

§ 12.112 *Use of frequencies above 30000 Mc.* Licensed amateur stations may be operated, subject to further order of the Commission, with any type of emission authorized for amateur stations, on any frequency or frequencies above 30000 Mc.

§ 12.113 *Individual frequency not specified.* Transmissions by an amateur station may be on any frequency within any authorized amateur band. Side-band frequencies resulting from keying or modulating a carrier wave shall be confined within the authorized amateur band.

§ 12.114 *Types of emission.* All bands of frequencies allocated to the amateur service may be used for the transmission of type A-1 emission, and for type A-0 emission for short periods of time when

¹ The frequencies specified in these rules may not be used by amateurs except pursuant to and subject to the limitations and restrictions prescribed by Commission Orders. The frequencies and types of emission which may be used by amateurs as of April 1, 1946, 3:00 a. m., eastern standard time, are prescribed in Commission Order No. 130-D. The use of additional frequencies will be authorized from time to time by modification of Order No. 130-D. The assignment and use of all frequencies below 25 Mc. contained in this part are subject to change in accordance with the Commission's final report of allocations below 25 Mc., in Docket Proceeding No. 6651.

required for authorized remote control purposes or for experimental purposes.

§ 12.115 *Frequency bands for additional types of emission using amplitude modulation.* The following additional types of emissions using amplitude modulation may be used on the following bands of frequencies:

28.1 to 29.7 Mc A-3.
50 to 54 Mc A-2, A-3, A-4.
144 to 148 Mc A-2, A-3, A-4.
235 to 240 Mc A-2, A-3, A-4.
420 to 450 Mc A-2, A-3, A-4, A-5.
1215 to 1295 Mc A-2, A-3, A-4, A-5.
2300 to 2450 Mc A-2, A-3, A-4, A-5.

21000 to 22000 Mc A-2, A-3, A-4, A-5.

Any type of emission may be used by amateur stations on amateur frequency bands above 1215 Mc.

§ 12.116 *Additional bands for radiotelephony.* Amateur stations may be used for radiotelephony with amplitude modulation (type A-3 emission) in the frequency bands 3900 to 4000 kc and 14150 to 14250 kc provided the station is licensed to a person who holds an amateur operator license endorsed for Class A operating privileges, and actual operation and control of the station is maintained by an operator holding Class A privileges.

§ 12.117 *Frequency modulation.* The following bands of frequencies may be used by amateur stations for frequency-modulated radiotelephone transmissions and for radiotelegraph transmissions employing carrier shift or other frequency modulation techniques:

29 to 29.7 Mc.	1215 to 1295 Mc.
52.5 to 54 Mc.	2300 to 2450 Mc.
144 to 148 Mc.	5250 to 5650 Mc.
235 to 240 Mc.	10000 to 10500 Mc.
420 to 450 Mc.	21000 to 22000 Mc.

Equipment and Operation

§ 12.131 *Maximum authorized power.* Except on frequencies within the band 420-450 Mc (where peak antenna power shall not exceed 50 watts), each amateur transmitter may be operated with a power input not exceeding 1 kilowatt to the plate circuit of the final amplifier stage of an amplifier-oscillator transmitter or to the plate circuit of an oscillator transmitter. An amateur transmitter operating with a power input exceeding 900 watts to the plate circuit shall provide means for accurately measuring the plate power input to the vacuum tube or tubes supplying power to the antenna.

§ 12.132 *Power supply to transmitter.* The licensee of an amateur station using frequencies below 144 Mc shall use adequately filtered direct-current plate power supply for the transmitting equipment to minimize modulation from this source.

§ 12.133 *Purity and stability of emissions.* Spurious radiation from an amateur station being operated with a carrier frequency below 144 Mc shall be reduced or eliminated in accordance with good engineering practice. This spurious radiation shall not be of sufficient intensity to cause interference in receiving equipment of good engineering design including adequate selectivity char-

acteristics, which is tuned to a frequency or frequencies outside the frequency band of emission normally required for the type of emission being employed by the amateur station. In the case of A-3 emission, the amateur transmitter shall not be modulated to the extent that interfering spurious radiation occurs, and in no case shall the emitted carrier wave be amplitude-modulated in excess of 100 percent. Means shall be employed to insure that the transmitter is not modulated in excess of its modulation capability for proper technical operation. For the purposes of this section a spurious radiation is any radiation from a transmitter which is outside the frequency band of emission normal for the type of transmission employed, including any component whose frequency is an integral multiple or submultiple of the carrier frequency (harmonics and subharmonics), spurious modulation products, key clicks and other transient effects, and parasitic oscillations. When using amplitude modulation on frequencies below 144 Mc, simultaneous frequency modulation is not permitted and when using frequency modulation on frequencies below 144 Mc simultaneous amplitude modulation is not permitted. The frequency of the emitted carrier wave shall be as constant as the state of the art permits.

§ 12.134 *Modulation of carrier wave.* Except for brief tests or adjustments, and except for operation in the band 27.185 to 27.455 Mc, an amateur radiotelephone station shall not emit a carrier wave on frequencies below 144 Mc unless modulated for the purpose of communication.

§ 12.135 *Frequency measurement and regular check.* The licensee of an amateur station shall provide for measurement of the emitted carrier frequency or frequencies and shall establish procedure for making such measurement regularly. The measurement of the emitted carrier frequency or frequencies shall be made by means independent of the means used to control the radio frequency or frequencies generated by the transmitting apparatus and shall be of sufficient accuracy to assure operation within the amateur frequency band used.

§ 12.136 *Logs.* Each licensee of an amateur station shall keep an accurate log of station operation, including the following:

(a) The date and time of each transmission. (The date need only be entered once for each day's operation. The expression "time of each transmission" means the time of making a call and need not be repeated during the sequence of communication which immediately follows; however, an entry shall be made in the log when signing off so as to show the period during which communication was carried on.)

(b) The signature of each licensed operator who manipulates the key of a radiotelegraph transmitter or the signature of each licensed operator who operates a transmitter of any other type and the name of any person not holding an amateur operator license who transmits by voice over a radiotelephone transmitter. The signature of the operator need

only be entered once in the log, in those cases when all transmission are made by or under the supervision of the signatory operator, provided a statement to that effect also is entered. The signature of any other operator who operated the station shall be entered in the proper space for that operator's transmission.

(c) Call of the station called. (This entry need not be repeated for calls made to the same station during any sequence of communication, provided the time of signing off is given.)

(d) The input power to the oscillator, or to the final amplifier stage where an oscillator-amplifier transmitter is employed. (This need be entered only once, provided the input power is not changed.)

(e) The frequency band used. (This information need be entered only once in the log for all transmission until there is a change in frequency to another amateur band.)

(f) The type of emission used. (This need be entered only once until there is a change in the type of emission.)

(g) The location of the station (or the approximate geographical location of a mobile station) at the time of each transmission. (This need be entered only once provided the location of the station is not changed. However, suitable entry shall be made in the log upon changing the location. Where operating at other than a fixed location, the type and identity of the vehicle or other mobile unit in which the station is operated shall be shown.)

(h) The message traffic handled. (If record communications are handled in regular message form, a copy of each message sent and received shall be entered in the log or retained on file at the station for at least 1 year.)

§ 12.137 *Retention of logs.* The log shall be preserved for a period of at least 1 year following the last date of entry. The copies of record communications and station log required by section 12.136 shall be available for inspection by authorized representatives of the Commission.

Special Conditions

§ 12.151 *Additional conditions to be observed by licensee.* In all respects not specifically covered by this part each amateur station shall be operated in accordance with good engineering and good amateur practice.

§ 12.152 *Restricted operation.* (a) If the operation of an amateur station causes general interference to the reception of transmissions from stations operating in the domestic broadcast service when receivers of good engineering design including adequate selectivity characteristics are used to receive such transmissions and this fact is made known to the amateur station licensee, the amateur station shall not be operated during the hours from 8 o'clock p. m. to 10:30 p. m., local time, and on Sunday for the additional period from 10:30 a. m. until 1 p. m., local time, upon the frequency or frequencies used when the interference is created. (b) In general, such steps as may be necessary to minimize inter-

ference to stations operating in other services may be required after investigation by the Commission.

§ 12.153 *Second notice of same violation.* In every case where an amateur station licensee is cited within a period of twelve consecutive months for the second violation of the provisions of §§ 12.111, 12.113, 12.115, 12.116, 12.117, 12.132, or 12.133, the station licensee, if directed to do so by the Commission, shall not operate the station and shall not permit it to be operated from 6 p. m. to 10:30 p. m., local time, until written notice has been received authorizing the resumption of full-time operation. This notice will not be issued until the licensee has reported on the results of tests which he has conducted with at least two other amateur stations at hours other than 6 p. m. to 10:30 p. m., local time. Such tests are to be made for the specific purposes of aiding the licensee in determining whether the emissions of the station are in accordance with the Commission's rules. The licensee shall report to the Commission the observations made by the cooperating amateur licensees in relation to the reported violations. This report shall include a statement as to the corrective measures taken to insure compliance with the rules.

§ 12.154 *Third notice of same violation.* In every case where an amateur station licensee is cited within a period of twelve consecutive months for the third violation of §§ 12.111, 12.113, 12.115, 12.116, 12.117, 12.132 or 12.133, the station licensee if directed by the Commission, shall not operate the station and shall not permit it to be operated from 8 a. m. to 12 midnight, local time, except for the purposes of transmitting a prearranged test to be observed by a monitoring station of the Commission to be designated in each particular case. The station shall not be permitted to resume operation during these hours until the licensee is authorized by the Commission, following the test, to resume full-time operation. The results of the test and the licensee's record shall be considered in determining the advisability of suspending the operator license or revoking the station license, or both.

§ 12.155 *Answers to notices of violations.* (Under title III of the act.) Any licensee receiving official notice of a violation of the terms of the Communications Act of 1934, any legislative act, Executive order, treaty to which the United States is a party, or the Rules and Regulations of the Federal Communications Commission, shall, within 3 days from such receipt, send a written answer direct to the Federal Communications Commission at Washington, D. C., and a copy thereof to the office of the Commission originating the official notice when the originating office is other than the office of the Commission in Washington, D. C.: *Provided, however,* That if an answer cannot be sent nor an acknowledgement made within such 3-day period by reason of illness or other unavoidable circumstances, acknowledgement and answer shall be made at the earliest practicable date with a satisfactory explanation of the delay. The answer to each notice shall be com-

plete in itself and shall not be abbreviated by reference to other communications or answers to other notices. If the notice relates to some violation that may be due to the physical or electrical characteristics of transmitting apparatus, the answer shall state fully what steps, if any, are taken to prevent future violations, and if any new apparatus is to be installed, the date such apparatus was ordered, the name of the manufacturer, and promised date of delivery. If the notice of violation relates to some lack of attention or improper operation of the transmitter, the name of the operator in charge shall be given.

§ 12.156 *Operation in emergencies.* In the event of widespread emergency conditions affecting domestic communication facilities, the Commission may confer with representatives of the amateur service and others, and if deemed advisable, declare that a state of general communications emergency exists, designating the area or areas concerned (normally not exceeding 1,000 miles from center of the affected area), whereupon it shall be incumbent upon each amateur station in such area or areas to observe the following restrictions for the duration of such emergency:

(a) Transmissions, other than those relating to relief work or other emergency service, such as amateur station networks can provide, shall not be made within the 1750-2050 kilocycles or 3500-4000 kilocycle bands. Incidental calling, testing and working, including casual conversation or remarks not pertinent or necessary to constructive handling of the emergency situation shall be prohibited.

(b) Frequencies within the bands 2025-2050 kilocycles, 3500-3525 kilocycles and 3975-4000 kilocycles shall be reserved for emergency calling channels, for initial calls from isolated stations or first calls concerning very important emergency relief matters or arrangements. All stations having occasion to use such channels shall change, as quickly as possible, to other frequencies for carrying on their communications.

(c) A 5-minute listening period for the first 5 minutes of each hour shall be uniformly observed for initial calls of major importance, both in the designated emergency calling channels and throughout the 1750-2050 kilocycles and 3500-4000 kilocycle bands. Only stations isolated or engaged in handling official traffic of the highest priority may continue with transmissions in these listening periods. No replies to calls or resumption of routine traffic shall be made in the 5-minute listening periods.

(d) The Commission may designate certain amateur stations to assist in promulgation of its emergency announcement, to police the 1750-2050 kilocycle and 3500-4000 kilocycle bands and to warn non-complying stations observed to be operating therein. The operators of these observing stations shall report fully to the Commission the identity of any stations failing to comply, after notice, with any of the pertinent provisions of this section. Such designated stations will act in an advisory capacity when

able to provide information on emergency circuits. Their policing authority shall be limited to the transmission of information from responsible official sources, and full reports of non-compliance which may serve as a basis for investigation and action under section 502 of the Communications Act. Such policing authority shall apply only to the 1750-2050 kilocycle and 3500-4000 kilocycle bands. Individual policing transmissions shall refer to this section of the rules by number (§ 12.156) and shall specify briefly and concisely the date of the Commission's declaration and the area and nature of the emergency. Policing observer stations shall not enter into discussions with other stations beyond the furnishing of essential facts relative to the emergency.

(e) The special conditions imposed under this section will cease to apply only after the Commission shall have declared such emergency to be terminated.

§ 12.157 *Obscenity, indecency, profanity.* No licensed radio operator or other person shall transmit communications containing obscene, indecent, or profane words, language, or meaning.

§ 12.158 *False signals.* No licensed radio operator shall transmit false or deceptive signals or communications by radio, or any call letter or signal which has not been assigned by proper authority to the radio station he is operating.

§ 12.159 *Unidentified communications.* No licensed radio operator shall trans-

mit unidentified radio communications or signals.

§ 12.160 *Interference.* No licensed radio operator shall willfully or maliciously interfere with or cause interference to any radio communication or signal.

§ 12.161 *Damage to apparatus.* No licensed radio operator shall willfully damage, or cause or permit to be damaged, any radio apparatus or installation in any licensed radio station.

§ 12.162 *Fraudulent licenses.* No licensed radio operator or other person shall obtain or attempt to obtain, or assist another to obtain or attempt to obtain, an operator license by fraudulent means.

APPENDIX 2—EXTRACTS FROM GENERAL RADIO REGULATIONS (CAIRO REVISION)

ARTICLE 5—Classification of emissions.

SECTION 1. Emissions shall be classified below according to the purpose for which they are used, assuming their modulation or their possible keying to be only in amplitude.

1. Continuous waves:

Type A0—Waves the successive oscillations of which are identical under fixed conditions.¹

Type A1—Telegraphy on pure continuous waves. A continuous wave which is keyed according to a telegraph code.

Type A2—Modulated telegraph. A carrier wave modulated at one or more audible frequencies, the audible frequency or frequencies or their combination with the carrier wave being keyed according to a telegraph code.

Type A3—Telephony. Waves resulting from the modulation of a carrier wave by frequencies corresponding to the voice, to music, or to other sounds.

Type A4—Facsimile. Waves resulting from the modulation of a carrier wave by frequencies produced at the time of the scanning of a fixed image with a view to its reproduction in a permanent form.

Type A5—Television. Waves resulting from the modulation of a carrier wave by frequencies produced at the time of the scanning of fixed or moving objects.²

NOTE: The band widths to which these emissions correspond are indicated in Appendix 3.

2. Damped waves:

Type B—Waves composed of successive series of oscillations the amplitude of which, after attaining maximum, decreases gradually, the wave trains being keyed according to a telegraph code.

¹ These waves are used only in special cases, such as standard frequency emissions.

² "Objects" is used here in the optical sense of the word.

SEC. 2. In the above classification, the presence of a carrier wave is assumed in all cases. However, such carrier wave may or may not be transmitted.

This classification does not contemplate exclusion of the use, by the administrations concerned, under specified conditions, of types of waves not included in the foregoing definitions.

APPENDIX 3—TABLE OF FREQUENCY-BAND WIDTHS OCCUPIED BY THE EMISSIONS

The frequency bands necessary for the various types of transmissions, at the present state of technical development, are indicated below. This table is based solely upon amplitude modulation. For frequency or phase modulation, the band widths necessary for the various transmissions are many times greater.

Type of transmission	Total width of the band in cycles for transmission with 2 side bands
A0 Continuous waves, no signaling.	-----
A1 Telegraphy, pure, continuous wave.	Numerically equal to the telegraph speed in bauds for the fundamental frequency, 3 times this width for the 3d harmonic, etc.
Morse code.	(For a code of 8 time elements (dots or blanks) per letter and 48 time elements per word, the speed in bauds shall be equal to 0.8 times the speed in words per minute.)
Baudot code.	
Stop-start printer.	
Scanning-type printer	300-1,000, for speeds of 50 words per minute, according to the conditions of operation and the number of lines scanned (for example, 7 or 12). (Harmonics are not considered in the above values.)
A2 Telegraphy modulated to musical frequency.	Figures appearing under A1, plus twice the highest modulation frequency.
A3 Commercial radiotelephony	Twice the number indicated by the C. C. I. F. opinions (about 6,000 to 8,000). ¹
Broadcasting	15,000 to 20,000.
A4 Facsimile	Approximately the ratio between the number of picture components ² to be transmitted and the number of seconds necessary for the transmission.
A5 Television	Approximately the product of the number of picture components ² multiplied by the number of pictures transmitted per second.

¹ It is recognized that the band width may be wider for multiple-channel radiotelephony and secret radiotelephony.

² Two picture components, one black and one white, constitute a cycle; thus, the modulation frequency equals one-half the number of components transmitted per second.

PUBLIC NOTICE OF PROCEDURE FOR HANDLING

The Commission, on April 11, 1946, effective immediately, adopted the fol-

¹ Part 1, Rules of Practice and Procedure, and Part 3, Subpart D, Rules Governing Television Broadcast Stations.

lowing procedure for handling commercial television applications. Conditional grants will not be issued where applications are incomplete as has been the practice in FM broadcasting.

1. *Complete applications.* Applications now on file which are complete under either the new or old engineering standards will be considered. An application will be considered complete even though it does not answer completely all questions pertaining to equipment. These parts may be supplied later if information is not now available from the manufacturers of equipment. Specifically the equipment items referred to are the following numbered paragraphs in Form 330: Paragraphs 18, 19, 20, 21, 22, 23, 24 (a) (6) and (g). If applications are not current regarding financial or other matters that relate to the qualifications of the licensee including the manner in which it is proposed to provide the 28 hour program service per week as required under the Commission's Rule 3.661, these matters should be brought up to date.

2. *Incomplete applications.* An examination of the file of pending applications indicates a high percentage of the applications are incomplete. Applications under this category must be completed before they will be given consideration. Applicants who know they have incomplete applications on file should proceed to complete them within the next sixty days. In the case of applications found incomplete at the time of processing, the applicant will be requested to furnish additional information within thirty days. Those that are not complete at that time will be dismissed. Applications should be brought to completion under the new Standards of Good Engineering Practice concerning Television Broadcast Stations adopted December 19, 1945 (11 F.R. 1105).

3. *Applications set for hearing.* In order to give the Commission's Engineering Department an opportunity to study the issues involved in advance of the hearing, it is requested that sections of the application dealing with antennas, transmitter sites and coverage (including radials) be submitted at least ten days in advance of the hearing, using the new standards as a basis for all computations.

FEDERAL POWER COMMISSION.

[Docket No. G-709]

BIG INCH GAS, INC.

NOTICE OF APPLICATION

APRIL 11, 1946.

Notice is hereby given that on March 29, 1946, Big Inch Gas, Inc. ("Applicant"), a Delaware corporation with principal office at 100 West 10th Street, Wilmington, Delaware, filed with the Federal Power Commission an application pursuant to section 7 of the Natural

Gas Act, as amended, for a certificate of public convenience and necessity authorizing the construction of the facilities necessary for the conversion of, and the operation of "Big Inch" Pipe Line for the transportation of natural gas.

In the application, "Big Inch" Pipe Line is described as follows:

The main pipe line, 1,340 miles in length, extends from Longview, Texas, through the States of Texas, Arkansas, Missouri, Illinois, Indiana, Ohio, West Virginia, Pennsylvania, and New Jersey to a terminal point at Linden, New Jersey. Of the total, 1,246 miles is 24-inch from Longview, Texas, to Phoenixville, Pennsylvania. 84 miles is 20-inch pipe from Phoenixville to Linden, New Jersey, and 8.6 miles of 24-inch and 1.5 miles of 20-inch pipe is in submerged river crossings. In addition to the main line, there is about 20 miles of 20-inch pipe and 20 miles of 16-inch, 14-inch, and 12-inch pipe between Phoenixville, and Philadelphia, Pennsylvania.

Applicant proposes to acquire "Big Inch" Pipe Line from War Assets Corporation, and to begin the necessary construction and conversion work immediately upon acquisition of the line. The conversion program includes the cleaning and testing of the line and the installation of compressors with capacity of over 100,000 horsepower at thirteen or more stations.

Applicant proposes to operate the line with a capacity of approximately 275,000,000 cubic feet of gas daily and at a maximum pressure of 800 to 820 pounds per square inch. Applicant states that it proposes to sell natural gas initially to utility companies in metropolitan areas of New York, New Jersey and eastern Pennsylvania at a price not in excess of 24¢ per thousand cubic feet, and that a market for the capacity of the line at a load factor of 90% has already been developed with utility companies. At the earliest possible time, the application states, applicant proposes to broaden its markets to serve utility companies in Delaware and Maryland.

Applicant states that it has commitments for the purchase of 300,000,000 cubic feet of gas per day from suppliers in the Carthage area and other areas in eastern Texas adjacent to the line with reserves adequate for capacity operations for over thirty years.

The estimated over-all capital cost of the acquisition of the line and the construction and other work necessary to place the line in operating condition, as stated in the application, is \$70,000,000.

No. 75—6

OFFICE OF PRICE ADMINISTRATION.

[Rev. SO 119, Order 154]

ROBERTS & MANDER STOVE CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Roberts & Mander Stove Company, Hatboro, Pennsylvania, may compute its adjusted ceiling prices for all articles of the line of gas and gas combination ranges which it manufactures, as follows:

(1) For an article which has a properly established ceiling price in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by 5.9 per cent.

(2) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the ceiling price (exclusive of all permitted increases or adjustment charges) hereafter properly determined or established in accordance with section 3, 7, or 8 of Maximum Price Regulation No. 64, increased by 5.9 per cent or the ceiling price determined in accordance with section 5 of Maximum Price Regulation No. 64 which price may not be increased under this order.

(3) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Retailers ceiling prices.* For sales in each zone by retailers other than mail order houses to ultimate consumers of the models listed below the ceiling prices including the Federal excise tax but not including any state or local taxes imposed at the point of sale are as follows:

Model	Article	Ceiling prices for sales to ultimate consumers			
		Zone 1	Zone 2	Zone 3	Zone 4
L-35	Gas range.....	\$107.25	\$110.25	\$112.50	\$116.75
L-45	do.....	112.95	115.95	118.50	122.75
L-55	do.....	130.95	133.95	136.50	141.25
L-65	do.....	128.50	131.95	134.95	139.95
L-75	do.....	161.25	165.25	168.50	174.25
L-9	Gas combination.....	182.75	187.95	192.25	199.95
L-95	do.....	189.50	194.75	199.25	206.95

The ceiling prices above include delivery and installation. If the retailer does not provide installation, he shall compute his ceiling price by subtracting \$6.00 in the case of gas ranges and \$9.00 in the case of gas combination ranges from his ceiling price as shown above for sales on an installed basis. If the retail dealer sells a stove equipped with any of the items listed below, he may add to the applicable ceiling price for the stove shown above an amount no greater than that set forth below opposite that item of equipment:

Additional equipment:	Amount which may be added
Gum filter "Q".....	\$0.95
Hi-Lo valves (for model L-9).....	1.75
Simmer burners (for model L-9).....	8.95
Simmer burners (for models L-35, L-45, L-55, L-65, and L-75).....	7.25
Lamp assembly "A".....	6.50
Lamp assembly "B".....	6.50
Lamp assembly "C".....	13.75
Lamp assembly "D".....	13.75
Lamp assembly "E".....	6.50
Cast iron water front.....	9.25

In all other respects these prices are subject to each retail seller's customary terms, discounts, allowances, (other than trade-in allowances) and other price differentials in effect on sales of similar articles.

(c) *Labelling.* The manufacturer shall, before delivering any range covered by this order after the effective date thereof, attach securely to the inside oven door panel a label which plainly states the applicable OPA retail ceiling price established by this order for sales of the range to ultimate consumers in each zone and the states included in each zone. The label shall also state that the retail prices shown thereon include the Federal excise tax, delivery, and installation and that if the seller does not provide installation, the ceiling price is \$6.00 less than the price shown on the label in the case of gas ranges and \$9.00 less than the price shown on the label in the case of combination ranges. There shall also be a statement that the label may not be removed until after the range is sold to an ultimate consumer.

(d) *Zones.* For the purposes of this order Zones 1, 2, 3, and 4, are those defined by Order No. 86 under Revised Supplementary Order No. 119.

(e) *Relationship of this order to Maximum Price Regulation No. 64.* All the provisions of Maximum Price Regulation No. 64 continue to apply to sales of articles covered by this order except to the extent that they are modified by this order.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on the 16th day of April 1946.

Issued this 15th day of April 1946.

[Rev. SO 119, Order 155]

ARGUS, INC.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Argus, Inc. of Ann Arbor, Michigan, may compute its adjusted ceiling prices to apply to its sales of all articles of photographic equipment which it manufactures from February 28, 1946, as follows:

(1) For an article which has a properly established ceiling price in effect be-

fore the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by 9.2 percent.

(2) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(3) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Resellers' ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

A reseller who determines his maximum resale price under the General Maximum Price Regulation shall calculate his ceiling price by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article being priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts and allowances on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Change in resellers' margins.* Reseller's maximum prices adjusted in accordance with this order are subject to further adjustments which may result from any change in resellers' margins which may be effected by the Office of

Price Administration to obtain absorption by resellers of any industry-wide increase in manufacturers' maximum prices.

(e) The provisions of Supplementary Order No. 153 shall not apply to sales covered by this order.

(f) *Notification.* At the time of or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(g) This order may be revoked or amended by the Price Administrator at any time.

(h) This order shall become effective on the 16th day of April 1946.

Issued this 15th day of April 1946.

PAUL A. PORTER,
Administrator.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* The Locke Machine Company of 971 East 63d Street, Cleveland 14, Ohio, may compute its adjusted ceiling prices for the Musselman Bicycle Coaster brakes and parts which it manufactures, as follows:

(1) For an article which has a properly established ceiling price in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by 18 percent.

(2) For an article which is first offered for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(3) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Resellers' ceiling prices.* Distributors and dealers who sell the article in the same form in which the manufacturer has sold it at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

A reseller who determines his maximum resale price under the General Maximum Price Regulation shall calculate his ceiling price by adding to his in-

voice cost the same percentage mark-up which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is the one which meets all the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article being priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Notification.* At the time of or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(e) The provisions of Supplementary Order No. 153 are not applicable to any sales covered by this order.

(f) This order may be revoked or amended by the Price Administrator at any time.

(g) This order shall become effective on the 16th day of April 1946.

Issued this 15th day of April 1946.

(b) *Resellers' ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

A reseller who determines his maximum resale price under the General Maximum Price Regulation shall calculate his ceiling price by adding to his invoice cost the same percentage mark-up which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is the one which meets all the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each

seller's terms, discounts, and allowances on sales to each class of purchaser in effect during March 1942, or thereafter properly established under OPA regulations.

(d) *Change in resellers' margins.* Resellers' maximum prices adjusted in accordance with this order are subject to further adjustments which may result from any change in resellers' margins which may be effected by the Office of Price Administration to obtain absorption by resellers of any industry-wide increase in manufacturers' maximum prices.

(e) The provisions of Supplementary Order No. 153 are not applicable to any sales covered by this order.

(f) *Notification.* At the time of or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser in writing of the method established in paragraph (b) of this order for determining adjusted maximum prices for resale of the articles. This notice may be given in any convenient form.

(g) This order may be revoked or amended by the Price Administrator at any time.

[Rev. SO 119, Order 159]

HERRING-HALL MARVIN SAFE CO.**ADJUSTMENT OF CEILING PRICES**

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Herring-Hall Marvin Safe Company, of 1550 Grand Boulevard, Hamilton, Ohio, may compute its adjusted ceiling prices for the safes and vaults, which it manufactures as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by 15.9 percent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, in effect before the effective date of this order, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) For an article which is first offered

for sale after the effective date of this order, the adjusted ceiling price is the maximum price hereafter properly determined or established in accordance with Maximum Price Regulation No. 188; and prices so fixed may not be increased under this order.

(4) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) *Resellers' ceiling prices.* Resellers of an article which the manufacturer has sold at an adjusted ceiling price determined under this order shall determine their maximum prices as follows:

A reseller who had a properly established maximum price in effect before this order was issued for an article covered by this order may add to that maximum price an adjustment charge in the same dollar-and-cents amount as the adjustment charge authorized by this order for, and which he had paid to his supplier.

If the reseller did not have a properly established maximum price for the article in effect before this order was issued he shall first determine a maximum price (exclusive of adjustment charges), and to that price he may add an adjustment charge in the same dollar-and-cents amount as the adjustment authorized by this order for, and which he has paid to, his supplier. To find his maximum price (exclusive of adjustment charges) for this purpose the reseller shall add to his invoice cost, less an adjustment charge stated on that invoice, the same percentage mark-up which he has on the "most comparable article" for which he has properly established ceiling price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article being priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of articles to which, according to customary trade practices, an approximately uniform percentage mark-up is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that

Section will reflect the supplier's prices as adjusted in accordance with this order.

The provisions of Supplementary Order No. 153 shall not apply to resale prices determined under this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, allowances and other price differentials in effect during March 1942, or which have been properly established under the applicable OPA regulation.

(d) *Notification.* At the time of or prior to the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resales of the articles covered by this order. This notice may be given in any convenient form.

(e) *Revocation or amendment.* This order may be revoked or amended by the Price Administration at any time.

(f) *Effective date.* This order shall become effective on the 15th day of April, 1946.

The provisions of Supplementary Order 153 shall not apply to resale prices determined under this order.

Issued this 15th day of April 1946.

Administrator.

MODULAR SIZE CLAY BUILDING BRICK, FACING TILE AND STRUCTURAL CLAY BUILDING TILE

DETERMINATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 10 of Maximum Price Regulation No. 592; *It is ordered:*

(a) The manufacturer's maximum prices for sales of modular size clay building brick and facing tile shall be determined by use of the following formula:

(1) He shall take his current maximum price established under Maximum Price Regulation 592, as amended, for his standard size clay building brick (2 1/4" x 3 3/4" x 8") when pricing a modular size clay building brick; or his current maximum price established under Maximum Price Regulation 592, as amended, for his standard size clay facing tile (2 1/4"

x 3 3/4" x 8") when pricing a modular size clay facing tile and use such maximum price as a basis (100%) to determine his maximum price for the new modular size.

(2) He shall then multiply his current maximum price determined under (1) above by the percentage figure appearing in the table, below, opposite the modular size to be priced. This results in his maximum price for the particular modular size being priced.

Modular nominal size face dimensions:	Percentage factor
2 3/4" x 8"	100
3" x 8"	115
4" x 8"	155
5 1/3" x 8"	210
8" x 8"	325
4" x 12"	235
5 1/4" x 12"	320
6" x 12"	365
8" x 12"	490
4" x 16"	315
8" x 16"	660

(b) Any person purchasing modular size clay building brick and facing tile from any manufacturer who has determined his maximum prices pursuant to (a) above shall employ the formula set forth in (a) (1) and (a) (2), above, using his maximum resale price for the standard size clay building brick or clay facing tile, whichever may be the case, as a basis (100%) in determining his maximum resale prices for the modular sizes. If the reseller is unable to utilize this formula, he shall establish his maximum prices under the appropriate section of the General Maximum Price Regulation.

(c) The formula set forth in (a) above, applies to stretcher units finished on one side, of 4" nominal thickness. Shapes, two-finish face units and stretcher units of nominal thickness other than 4" shall be priced in the same relation to units covered by the formula above as are now in use. If such price relationships have not been established, the manufacturer shall apply for approval or authorization of maximum prices under section 9 or 10 of Maximum Price Regulation No. 592.

(d) The manufacturer's maximum prices for modular sizes of structural clay building tile shall be the same as his established maximum prices for his sizes of structural clay tile displaced by the new modular size, pursuant to the following table:

Modular (nominal)	Present size Displaced (actual)
4" x 12"	3 5/8" x 12"
5 1/2" x 12"	5" x 12"
6" x 12"	5" x 12"
8" x 8"	7 3/4" x 7 3/4"
8" x 12"	7 3/4" x 12"
8" x 16"	7 3/4" x 16"
12" x 12"	12" x 12"

(e) A manufacturer who is not able to price modular sizes of structural clay tile under the pricing method set forth in (d) above shall apply for approval or authorization of maximum prices under sections 9 or 10 of Maximum Price Regulation 592.

(f) Any person purchasing modular sizes of structural clay building tile from any manufacturer who has determined

his maximum prices pursuant to (d) above shall employ the formula set forth in (d) above in determining his maximum resale prices for the modular sizes. If he cannot determine his maximum resale prices by use of this formula, he shall establish a price under the appropriate section of the General Maximum Price Regulation.

(g) Before offering for sale or delivery for the first time any item at maximum prices determined under this Order, the manufacturer shall file revised price lists with the Office of Price Administration, Building and Construction Price Division, Washington 25, D. C.

(h) The maximum prices established herein shall be subject to at least the same cash, quantity and other discounts, transportation allowances, services, and other terms and conditions of sale as the seller extended or rendered on comparable sales to purchasers of the same class during March 1942.

(i) Modular size brick, facing tile and structural tile mean products manufactured in accordance with specifications set forth in the "Proposed American Standard Size of Clay and Concrete Masonry Units A-62.3" issued by the American Standards Association.

(j) All provisions of Maximum Price Regulation 592 not inconsistent with this order shall apply to sales covered by this Order.

(k) This order may be amended or revoked by the Office of Price Administration at any time.

NOTE: The reporting requirement of this order has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This Order No. 17 shall become effective April 15, 1946.

[Region II Order G-10 Under Rev. SO 119]

BUCH MFG. CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16, and authority delegated under section 19 to the Regional Administrator of Region II under Revised Supplementary Order No. 119, it is ordered, That:

(a) *Manufacturers' ceiling prices.* Buch Manufacturing Company, Elizabethtown, Pa., may increase its properly established maximum prices (exclusive of any other increases or adjustments permitted by any other Order or Regulation immediately prior hereto) for the following products or product lines of which it is the manufacturer, to each class of purchaser, by an amount not in excess of 17% of such maximum prices:

Garden barrows. Linoleum rollers.
Steel tray barrows. Tampers.
Lawn rollers.

(b) *Definitions.* All words and phrases used in this Order shall receive the same definition as in Revised Supplementary Order No. 119 or any revision or amendment thereto.

(c) *Maximum prices which may be increased.* The increase permitted by this order shall be applied to those properly established maximum prices for the products or product lines covered by this order which were in effect immediately prior to the date of the application on which this order is issued exclusive of any adjustment charges or increases which may have been permitted on or before that date. Any adjustments permitted by Order No. 16, issued March 13, 1946, by the Administrator of Region II, is specifically excluded.

A reseller shall calculate his ceiling price by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose the "most comparable article" is the one which meets all of the following tests:

(i) It belongs to the narrowest trade category which includes the article being priced.

(ii) Both it and the article being priced were purchased from the same class of supplier.

(iii) Both it and the article being priced belong to a class of articles to

which, according to customary trade practices, an approximately uniform percentage markup is supplied.

(iv) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(e) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's terms, discounts, and allowances, on sales to each class of purchaser in effect during March 1942, or thereafter properly established under O. P. A. regulations.

(f) *Saving clause.* Except as modified by this order, each seller affected shall in all respects remain subject to all the applicable provisions of the appropriate applicable price regulations.

(g) *S. O. 153 excluded.* The provisions of Supplementary Order No. 153 shall not apply to sales of the commodities or products included in this order.

(h) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale on and after the effective date of this order, showing prices adjusted in accordance with this order, the seller shall notify the purchaser on such invoice, in writing, of the methods established in paragraph (d) of this order for determining adjusted maximum prices for resales of the products or articles covered by this order. Such notice shall include a statement that the provisions of Supplementary Order No. 153 do not apply to resellers' maximum prices for such articles or products. This notice may be given in any convenient form.

(i) *Revocation.* Order No. 16 under Supplementary Order No. 119 issued March 13, 1946, by the Administrator for Region II, is hereby revoked.

All requests for adjustments in maximum prices not specifically granted by this order are hereby denied, and to the extent of such denial a review may be requested in accordance with the provisions of Revised Procedural Regulation No. 1.

This order may be revoked, amended, or modified by the Regional Administrator or the Price Administrator at any time.

This order shall become effective April 9, 1946.

Issued this 9th day of April 1946.

Regional Administrator.
